## Vanishing Breed:

**Horsing Around** Lawrence Clayton, Kenneth W. Davis, Mary Collins, 1998-11-15 The tradition of storytelling and folklore reaches deeply into the American notion of national identity and among the more prominent emblems of American culture stands the cowboy. Despite the attempts to modernize the cowboy of our frontier past today's mounted horsemen have learned how to adapt to a rapidly changing world while tenaciously holding on to their heritage. Tall tales and yarns make up a great amount of the folklore of this literary tradition yet woven throughout such stories stir an American mixture of humor, wisdom, and philosophy. In *Horsing Around*, Clayton, Davis, and Collins draw upon the vast amount of anecdotes portraying the lighter side of working on the range. The collected vignettes in *Horsing Around* will provide the collector of Texana greater accessibility to stories that are often told only at public performances. **Boom or Bust** Sheena B. Stief, Kristen L.

Figgins, Rebecca Day Babcock, 2021-04-01 A vast number of studies have documented the economic and geological effects of oil production but the impact of boom and bust cycles on individuals and communities has received less attention. *Boom or Bust* remedies this gap by highlighting the personal experiences of those directly affected in an economy dominated by oil and natural gas production. The Permian Basin is one of the largest oil producing regions in the United States. People who live there have benefited from explosive growth only to see opportunities vanish with sudden industry downturns. In 2016 the National Endowment for the Humanities funded a grant for the study and collection of energy narratives in this economically volatile region. *Boom or Bust* derives from that community initiative and offers a unique contribution to the developing field of energy humanities. The oil field industry may seem to be all about numbers but as *Boom or Bust* demonstrates residents of oil and gas country whether they work in the oil field or not are at the mercy of an ever-shifting economy. When the price of oil rises companies move in and newcomers flood the area expanding the employment force. And as the population booms so does the infrastructure of cities. When prices drop though families must make difficult choices whether to stay put or follow the oil to another location. With the ensuing declines in population small businesses close their doors and unemployment levels rise. Despite the inevitable declines and despite the increase in alternative energy resources many West Texans feel a sense of pride that borders on patriotism. *Boom or Bust* reveals the full complexity of boomtown culture. **Vanishing**

**Breed** Lon LaFlamme, 2000-08-03 Everything has always come easy for Swedish-born and American-raised Hank Oscarson. The Lexington, Kentucky, thoroughbred breeder and Derby track veterinarian seems to have it all at the age of thirty-five. All but passion for anything other than horses and expanding his financial empire. Even America's trail of blood and sacrifice by December 1944 fails to stir patriotism for his adopted country. A half-thought-out scheme to slip into Germany's East Prussia to retrieve a stallion and mare before one of the world's finest all-around horse breeds vanishes results in Hank being ensnared in a massive refugee flight from attacking Russians. He finds love, raw strength, and burning purpose in one of history's most dramatic and tragically attempted evacuations of women and children in the midst of war. *More Tellable*
