## **When The Heart Beckons:**

**When The Heart Beckons** Jill Gregory, 2011-08 Private investigator Annabel Brannigan's mother was a brave Union Spy during the war so she's confident she has what it takes to track down her childhood friend Brett McCallum in the wilds of the Arizona Territory and rescue him from whatever trouble drove him to flee his wealthy St Louis home. Annabel has secretly loved Brett for years and is determined to save him from the ruthless men hunting him out west but can she save herself from Roy Steele the rugged dangerous gunslinger also tracking Brett? When Steele protects her from vicious desperadoes they're forced to travel together. Though Annabel has lied and told Steele she's Brett's fiancée she finds herself drawn to the handsome gunslinger against her will. Yet Steele's heart seems to be made of stone. And he wishes it was. Because Roy Steele is a man of secrets and a woman slowing him down is the last thing he needs. But he can't keep the beautiful courageous Annabel out of his mind or out of his arms. As danger surrounds them he wants only two things to keep Annabel safe and to have her for his own. A wonderfully exciting romance from the Old West. The plot twists in this novel are handled expertly. It's great from start to finish. *Rendezvous* Jill Gregory combines all the drama of a gritty western with the aura of a homespun romance in this beautifully rendered tale. The wonderful characters are sure to win readers' hearts. *Romantic Times*

I have had many successful life roles, and my small human self would note numerous hurdles vaulted but remaining in each evolving moment. Consciously, my Higher Self has a different perspective. Living like lines of a poem is energy in motion. *Thoughts Come and Good Grief* are poems describing that energy.

moving through processes of possibility It s a matter of trusting the systems theory of the whole of everything and being a conscious whole and integral part of that Everything which then promotes reverence for all of Life Itself Let us let energy transform as we move in its flow
