Why War:

Why War? Richard Overy, 2024-06-04 An Economist Best Book of the Year Richard Overy is one of the world's finest military historians His book is timely for those interested in preventing war Gen Mark Milley U S Army retired 20th Chairman of the Joint Chiefs of Staff Army magazine Why has war been such a consistent presence throughout the human past A leading historian explains drawing on rich examples and keen insight Richard Overy is not the first scholar to take up the title question In 1931 at the request of the League of Nations Albert Einstein asked Sigmund Freud to collaborate on a short work examining whether there was a way of delivering mankind from the menace of war Published the next year as a pamphlet entitled Why War it conveyed Freud's conclusion that the death drive made any deliverance impossible the psychological impulse to destruction was universal in the animal kingdom The global wars of the later 1930s and 1940s seemed ample evidence of the dismal conclusion A preeminent historian of those wars Overy brings vast knowledge to the title question and years of experience unraveling the knotted motivations of war His approach is to separate the major drivers and motivations and consider the ways each has contributed to organized conflict They range from the impulses embedded in human biology and psychology to the incentives to conflict developed through cultural evolution to competition for resources conflicts stirred by the passions of belief the effects of ecological stresses the drive for power in leaders and nations and the search for security The discussions show remarkable range delving deep into the Neolithic past through the twentieth century world wars and up to the current conflict in Ukraine The examples are absorbing from the Roman Empire's voracious appetite for resources to the impulse to power evident in Alexander the Great Napoleon and Hitler The conclusion is not hopeful but Overy's book is a gift to readers a compact judicious engrossing examination of a fundamental question

Why War Simon Stander, 2014-02-27 This groundbreaking survey explains why war remains predominant in today's world by showing how the spread of nationalism and capitalism has brought about modern warfare It argues that the key explanation for modern conflict which is characterized by violent conflicts between nation states civil war and wars over resources rests in the dialectical relationship between nation states and capitalist modes of production where nations have finite boundaries that capitalism seek to transcend in search of increased profits Discussing issues such as globalization global capitalism North and Latin American continental policies the nature of democracy decolonization and technology and military industrial complexes this unique work challenges common approaches to international relations and peace studies This innovative accessible work provides new insights into the causes and nature of modern war that will appeal to any student concerned with peace and violent conflict within the various fields of international relations political economy peace studies and more
