predictive of the agency in particular of the United States the Center in bringing about in the world the more general chaos we are now observing relative to various refugee and migrant crises the emergence of sophisticated and even postmodern forms of militant and cyber terrorism banking and other monetary crises environmental catastrophes under the aegis of climate change the defunding of public higher education the persistence of virulent forms of racism and other types of intolerance the concentration of wealth in fewer and fewer hands the marginalisation and even outright elimination of human labor forces etc O Neill provides historical analyses that illuminate why this is the case and he also asks what changes in the United States in its politics in its socio cultural formations and in its beliefs and supposedly common values might help us to avoid the seemingly inevitable and lamentable destruction that lies ahead **The Mining Congress Journal** ,1919
