Biohack Like a Woman Aggie Lal, 2024-09-26 THE INTERNATIONAL BESTSELLER AND LIFE CHANGING GUIDE
Biohack Like a Woman written by health coach and biohacker Aggie Lal is a revolutionary approach to weight loss and biohacking that's made by a woman for women. We live in a world where women are bombarded with weight loss information from every angle. However, most of that information is created by men that see shedding pounds from a male perspective. They don't take into account the most important variable to us women: our Infradian Rhythm. Enter *Biohack Like a Woman*, a tailor-made way for you to lose all the weight you desire. Not by counting calories but by biohacking your Infradian Rhythm, otherwise known as your 28-day cycle. As you probably know, our cycles regulate our hormones, and hormones regulate our hunger, fat burning, energy levels, sleep quality, and mood. When we go on restrictive diets or bust our asses in the gym without being mindful of our hormones, we are going against our own body's rhythm. This is not a recipe book, this is not an exercise routine, this isn't even a diet book. It's a blueprint on how to listen to your Infradian Rhythm and adapt the information you'll discover in the book to your own special circumstances, which you can customize to you and your needs. And best of all, you won't have to change your diet or lifestyle to achieve your goals because one of the key things you'll find out when you read the book is that when and how you eat is more important than what you eat. Best part: *Biohack Like a Woman* comes with a trained AI coach to help you digest everything in the book and help you better calibrate the biohacking protocol to your unique needs.

growing movement of modifying the human body as it is right now **Biohackers Magazine Issue 17** , When one experiences a new product a new treatment or a new idea there s little that compares to the feelings of excitement and hope that rush in fueling one s faith in the upright direction of humanity I just recently attended the 8th Annual Biohacking Conference hosted by Dave Asprey in LA and like each biohacking event I left feeling inspired to say the least Everything I saw every person I met and every biohack I experienced further fed my appetite to share these great ideas and practices with the world a world hungering for the opposite approach of industrialized medicine Now of course not every biohack is exactly 100% proven Suffice it to say there are many that are still in the process of collecting data from studies and clinical trials However those that have stood up to the modern pill popping regimes and have adamantly supported their ideas on the foundations of strong scientific data are truly examples to be held in high regard I was impressed with the many products and companies at the conference that held a mission of dedicated service to fellow mankind Yes like in any startup industry or even industry for that matter there are those who are looking to push some falsehood to scheme people into buying their product or services But as we know the companies that rise to the top are those that stick to the cardinal virtues that make up all of us Prudence Justice Fortitude and Temperance The Biohacking Industry is outgrowing its mold and soon a new layer of enthusiasts will be added This is something that should enthrall us but it shouldn t permit us to lose sight of the foundational attributes that make and will continue to make us biohackers for the rest of our lives Essentially we are all after freedom freedom from disease freedom from injury freedom from hysteria and freedom from aging Responsible Biohacking is perhaps the best way towards that freedom and we must continually adjust our sails to catch the winds that stem from truth and service That is what we at Biohackers Magazine strive towards serving the community through the provision of information carefully discerned and attuned to the values of sincerity and science *The Playful Citizen* René Glas,Sybille Lammes,Michiel Lange,Joost Raessens,Imar Vries,2025-10-01 In the last decade digital media technologies and developments have given rise to exciting new forms of ludic or playful engagements of citizens in cultural and societal issues From the Occupy movement to playful city making to the gameful designs of the Obama 2008 and Trump 2016 presidential campaigns and the rise of citizen science and ecological games this book shows how play is a key theoretical methodological and practical principle for comprehending such new forms of civic engagement in a mediatized culture The Playful Citizen explores how and through what media we are becoming more playful as citizens and how this manifests itself in our ways of doing living and thinking We offer a pluralistic answer to such questions by bringing together scholars from different fields such as game and play studies social sciences and media and culture studies **The Gospel of Wellness** Rina Raphael,2022-09-20 Next level revelatory Sarah Knight New York Times bestselling author of The Life Changing Magic of Not Giving a F ck Excellent Rina really knows her shit I m so thankful for this book Jameela Jamil actress and host of I Weigh Journalist Rina Raphael looks at the explosion of the wellness industry how it stems from legitimate complaints how seductive
