Spirit And System:

Spirit and System Dominic Boyer, 1906 Combining ethnography history and social theory Dominic Boyer's *Spirit and System* exposes how the shifting fortunes and social perceptions of German intellectuals in the nineteenth and twentieth centuries influenced Germans' conceptions of modernity and national culture Boyer analyzes the creation and mediation of the social knowledge of German-ness from nineteenth-century university culture and its philosophies of history to the media systems and redemptive public cultures of the Third Reich and the German Democratic Republic to the present-day experiences of former East German journalists seeking to explain life in post-unification Germany Throughout this study Boyer reveals how dialectical knowledge of German-ness that is knowledge that emphasizes a cultural tension between an inner spirit and an external system of social life is modeled unconsciously upon intellectuals' self-knowledge as it tracks their fluctuation between alienation and utopianism in their interpretations of nation and modernity Parliamentary Papers Great Britain.
