Spiritual Evolution:

Spiritual Evolution George Vaillant, 2008-05-20 In our current era of holy terror passionate faith has come to seem like a present danger Writers such as Richard Dawkins Sam Harris and Christopher Hitchens have been happy to throw the baby out with the bathwater and declare that the danger is in religion itself God Hitchens writes is not great But man according to George E Vaillant M D is great In *Spiritual Evolution* Dr Vaillant lays out a brilliant defense not of organized religion but of man s inherent spirituality Our spirituality he shows resides in our uniquely human brain design and in our innate capacity for emotions like love hope joy forgiveness and compassion which are selected for by evolution and located in a different part of the brain than dogmatic religious belief Evolution has made us spiritual creatures over time he argues and we are destined to become even more so *Spiritual Evolution* makes the scientific case for spirituality as a positive force in human evolution and he predicts for our species an even more loving future Vaillant traces this positive force in three different kinds of evolution the natural selection of genes over millennia of course but also the cultural evolution within recorded history of ideas about the value of human life and the development of spirituality within the lifetime of each individual For thirty five years Dr Vaillant directed Harvard s famous longitudinal study of adult development which has followed hundreds of men over seven decades of life The study has yielded important insights into human spirituality and Dr Vaillant has drawn on these and on a range of psychological research behavioral studies and neuroscience and on history anecdote and quotation to produce a book that is at once a work of scientific argument and a lyrical meditation on what it means to be human *Spiritual Evolution* is a life s work and it will restore our belief in faith as an essential human striving

Spiritual Evolution Amanda Malvina Hicks, 1919 **The Seven Powers of Spiritual Evolution** Alba Ambert, 2008-09-18 This book is a call to the heart for all those who are seeking a more profound and enduring connection to their spiritual selves It offers a springboard to move forward on a spiritual path based on an open and awakened heart It deftly combines information on the seven spiritual powers within us with meditations and practices that allow the reader to tap into these powers easily and effectively If you are ready to make the change from mind domination to heart guidance this book will help you make that shift **Spiritual Evolution** Hicks Amanda M., 1901 [An Essay on Spiritual Evolution](#) J. P. B., J. P. Bryce, 1879 *The Evolution of Awareness* Suzanne Daniele-george, Ph.d., Rev Suzanne Daniele-George Ph D, Elizabeth Isabeau Boody, 2015-03-06 The purpose of this journal is to offer opportunities to provoke thought encourage internal examination and discovery as well as inspire creative ideas and evoke a demonstration of compassion respect and love for all of the creation For many years now I have dedicated my life to the exploration and study of spirituality and theology Although they travel very separate roads I have come to the understanding that theology is simply the history of our desire as mankind to explore our relationship with the God of our understanding while spirituality tends toward the

exploratory journey both externally and internally The sermons contained in this journal span subject matter in every experience Pagan Fundamental New Thought Modern Christian and Buddhist It is my sincerest hope that the lessons are helpful to those who have taken on the mantle to teach and inspire others in the ministry and serve as food for their own sermons and lessons For the reader who is simply looking for an inspired good read I pray they find new tools ideas and are opened to new considerations of their personal nature and the nature of God through exploration Too often we as a race the human race find reasons to separate our ideas and standards of personally conceived behavior from one another s best interests It would be wonderful and more fitting for the human race to consider the needs desires and circumstances of all of its members in unity and compassion In my personal experience I have found that the better we know someone and the more time we invest in understanding them the more we grow to hold them in our affection I have heard it said over and over again that the friend that at first we did not warm to immediately has become our closest and most cherished companion Or that this best friend of mine drives me crazy they are a huge pain in the ass and But I love them more than I love myself The struggle to understand each other bonds us like no other struggle The greatest hope I have for all of us is a running theme in this manuscript and that is Learn to Love The time for tolerance is past the world WILL change and so must we From a spiritual perspective we cannot possibly evolve unless we love God is Love and so we having the Spirit of God within also are love To deny that divine nature is to give in to our baser self and not embrace our full potential as beings human beings belonging to one race and one people Rev Suzanne Daniele George **Spiritual Evolution** Warren Holden,1889

A Spiritual Evolution John C. MacMurray, Jr.,2018-05-31 **The Story of Human Spiritual Evolution** Richard Ferguson,2012-10-23 This book is one of a kind It traces the history of human awareness of God and belief back to its earliest roots long before the Bible the Koran the Upanishads and other writings It shows how the foundation for belief in God was contained within the instant of creation itself Scientists call this the big bang It shows that as the universe developed there came a point in human development where we had the capability to begin to be aware of an afterlife These ideas were primitive by our standards today but they served to create a solid foundation for increasing complex and more thorough understandings of who God is and our relationship with Him This book covers the well known axial age where there was a watershed or flood of prophets and holy men who advanced understandings of both philosophy and theology and science in the hundreds of years before the coming of Jesus Christ In a real sense they prepared the way for God s son and His gospel It is these men who changed the course of human understanding of God with new revolutionary ideas that advanced the self revelation of God to humankind The last part of the book looks at religion today and how we got here and ends with God s view of humanity as we constantly strive toward God on our individual spiritual journeys
