A Brutal Unity Ephraim Radner,2025-06-18 To describe the Church as united is a factual misnomer even at its conception centuries ago Ephraim Radner provides a robust rethinking of the doctrine of the church in light of Christianity s often violent and at times morally suspect history He holds in tension the strange and transcendent oneness of God with the necessarily temporal and political function of the Church and in so doing shows how the goals and failures of the liberal democratic state provide revelatory experiences that greatly enhance one s understanding of the nature of Christian unity
