The Sport Star Barry Smart, 2005-08-24 Why are sport stars central to celebrity culture What are the implications of their fame Proceeding from a broadly based discussion of heroism fame and celebrity Smart addresses a number of prominent modern sports and sport stars including Michael Jordan basketball David Beckham football Tiger Woods golf Anna Kournikova and the Williams sisters tennis He analyses the

development of modern sport in the UK and USA demonstrating the key economic and cultural factors that have contributed to the popularity of sport stars while examining issues such as race and gender the impact of professionalization growing media coverage the role of agents and the increasing presence of commercial corporations providing sponsorship and endorsement contracts This book situates the sport star as the embodiment of the various tensions of age class race gender and culture It argues that sporting figures possess an increasingly rare quality of authenticity that gives them the capacity to lift and inspire people The book is a major contribution to the sociology and culture of sport and celebrity

Determinants of Achievement in Top Sport Matej Maksimiljan Tusak, Tiziano A. Agostini, Donatella Di Corrado, 2026-03-05 Success in competitive sports depends primarily on athletes skills personality and motivation Many studies have investigated the determinants of success The presence of the zeitgeist social cognitive perspective in psychology has shifted the focus to motivation in top sports Social cognitive approaches have become the primary framework for researching almost everything in psychology Despite extensive discussion and research on the relationship between motivation and personality characteristics there is still a lack of evidence connecting psychological preparation pre competitive states and psychological techniques to sports success and efficiency There is still a gap in determining which psychological approaches and mental techniques contribute to success in top sports Different regression models are expected to explore the determinants of success by comparing males and females as well as young athletes versus top athletes The final formula for success is still undefined regarding the importance of pre competitive states psychological preparation technical skills and knowledge Techniques of psychological preparation such as hypnosis visualization or cognitive stress coping techniques are not clearly defined and discussed Therefore addressing this gap is crucial The following goals should be discussed Psychological factors contributing to success in top sports motivational variables contributing to success in top sports personality structures contributing to top achievements stress and coping strategies in top sports the use of psychological preparation and its relation to top achievement in sports evidence based research on specific psychological preparation techniques and their effectiveness in helping athletes achieve top performances pre competition states and their relation to success in top sports differences in psychological characteristics contributing to top achievements between males and females and between youth athletes and top athletes important factors in the development of motivation for success in athletes ethics and strategies to emphasize fair play in top sports the era of COVID 19 and its relationship to success in top sports including correlation with specific psychological factors Researchers are invited to submit original research to contribute to this topic We also welcome brief research reports systematic reviews and meta analyses reviews and theoretical articles By understanding the factors contributing to success in top athletes we can develop strategies to improve their results and effectiveness

Psychological Factors in Physical Education and Sport - Volume IV Manuel Gómez-López, Carla Maria Chicau Costa Borrego, Marianna Alesi, David Manzano Sánchez, 2025-02-19 The regular practice of physical activity has a positive influence on the physical

and psychological health of participants In a context such as sports or physical education classes knowledge and manipulation of psychological variables such as attention self confidence stress control anxiety motivation cohesion self control or emotional self regulation moods and interpersonal skills can influence sports commitment and sports or academic performance Furthermore it has also been confirmed that a highly competitive context under a motivational climate involving the ego can generate feelings of fear of failure and the appearance of feelings of shame causing in athletes and students some degree of insecurity anxiety or stress and avoidance behaviors which will negatively affect the well being interpersonal behavior and performance Therefore physical and psychological well being depends on the social environments in which physical activity and sport are practiced and therefore on the significant agents in the environment This Research Topic would aim to collect the most recent research on factors influencing physical and psychological well being and adherence to physical activity in the context of sports and physical education classes **Jewish Sports Stars** David J.
