days when the vast market which sprawled haphazardly over the center of the city was known as the belly of Paris. Once alive with the cries of fruit sellers, fish vendors, butchers, and florists, the scent of brightly colored flower bouquets intermingling with wafts of freshly baked bread and heaving with swarms of market goers, today there is no trace of the nine hundred year old market place that used to stand in the center of Paris at Les Halles. The immense Baltard Pavilions were torn down in 1971 to make way for a modern underground shopping precinct, but Parisians still hold a special affection for days gone by. When to borrow an expression used by Émile Zola, the bustling markets formed the belly of their city. One such Parisian in particular was Robert Doisneau, one of the best loved French photographers of all time. Driven by his relentless curiosity and a sense of social conscience, Doisneau paced the Pavilions and their neighboring streets at length and here he captured the heart of daily life at Les Halles. Many of Doisneau's romantic photographs have become iconic representations of twentieth century Paris, but this volume exhibits some of his lesser known but nonetheless extraordinary works. He had an uncanny capacity for capturing poetry in ordinary moments: a smiling fruit seller bellows from behind a pyramid of oranges while a fish vendor hauls a cart of gigantic fish past a mountain of flower bouquets ready to grace Parisian dinner tables, which you can virtually smell. Doisneau has immortalized the bustling magic of Les Halles in his bold and busy photographs. Coinciding with the long awaited redevelopment of this area that began in 2011, this volume plunges the reader back through time to the sights, smells, sounds, and tastes of the vanished era of Doisneau's Les Halles, whilst commentary from the photographer's personal notebooks places his images in their economic and political context.

Esquire, 1954-02 The British National Bibliography Arthur James Wells, 2009 *Forthcoming Books* Rose Arny, 2003-04 Atlantic Crossings Daniel T. RODGERS, 2009-06-30

The most belated of nations, Theodore Roosevelt called his country during the workmen's compensation fight in 1907. Earlier reformers, progressives of his day, and later New Dealers lamented the nation's resistance to models abroad for correctives to the backwardness of American social politics. *Atlantic Crossings* is the first major account of the vibrant international network that they constructed, so often obscured by notions of American exceptionalism and of its profound impact on the United States from the 1870s through 1945. On a narrative canvas that sweeps across Europe and the United States, Daniel Rodgers retells the story of the classic era of efforts to repair the damages of unbridled capitalism. He reveals the forgotten international roots of such innovations as city planning, rural cooperatives, modernist architecture for public housing, and social insurance among other reforms. From small beginnings to reconstructions of the new great cities and rural life, and to the wide ranging mechanics of social security for working people, Rodgers finds the interconnections, adaptations, exchanges, and even rivalries in the Atlantic region's social planning. He uncovers the immense diffusion of talent, ideas, and action that were breathtaking in their range and impact. The scope of *Atlantic Crossings* is vast and peopled with the reformers, university men, and women, new experts, bureaucrats, politicians, and gifted amateurs. This long duration of contemporary social policy encompassed fierce debate, new conceptions of the role of the state, an acceptance of the

importance of expertise in making government policy and a recognition of a shared destiny in a newly created world
