

# Favorite School Subject

My favorite school subject is science. I like it because it helps me understand the world around me. Science is full of experiments and discoveries. I enjoy learning about animals, plants, and how things work. My favorite part is when we do experiments in the lab. It's fun to see how things change and react when we mix different materials.

Science also teaches us about space, the stars, and the planets. I love thinking about how big the universe is and wondering what might be out there. I find it amazing how scientists discover new things every day and help improve our lives.

I also like learning about the Earth and how we need to take care of it. Topics like recycling, saving water, and protecting nature are important. Science makes me want to be a better person and help the environment.

Science is not just about facts; it's about asking questions and finding answers. I enjoy reading about new discoveries and thinking about how things work. That's why science is my favorite subject.
