Kelly, Richard A. Lesh, John Y. New Directions for Mental Health Services, Speculative Innovations for Helping People with Serious Mental Illness Mona Wasow, 1999-10-14 If there were no financial or legal restraints what parts of the mental health system would you change in hopes of improving the lives of people with serious mental illnesses This volume of New Directions for Mental Health Services posed this question to a consumer a parent researchers teachers administrators and clinicians Their creative and insightful answers point the way to a more comforting and consumer oriented mental health system for the future and provide some innovative ideas that could be implemented now The authors address working conditions for mental health professionals the benefits of pets to people with mental illness and strategies to counteract the isolation in which many people with mental illness live They also offer practical steps that parents can take to make sure that their mentally ill adult children will have some emotional and economic care after the parents deaths and they discuss interventions at both the domestic and community levels that could reduce the occurrence of schizophrenia and enhance the quality of life for sufferers This is the 83rd issue of the quarterly journal New Directions for Mental Health Services

Multidisciplinary Approaches to Food Choice ,1996 **Managed Behavioral Health Care: Current Realities and Future Potential** David Mechanic, 1998-07-14 Discussions of managed care are dominated by emotion and rhetoric and failure to differentiate among the varying structures approaches and strategies that are called managed care These discussions rarely take account of the complexity of the arena or the failures of mental health systems prior to the introduction of managed care If we are to shape managed care constructively we first need clear understanding of how it is structured how it functions and when it performs well and poorly This should help identify how practices can best be monitored evaluated and if necessary regulated This book will help readers along this path This is the 78th issue of the quarterly journal New Directions for Mental Health Services For more information on the series please see the Journals and Periodicals section
