Kenana Handbook Of Sudan Hopkins.Peter,2014-06-03 First published in 2007 The Kenana Handbook of Sudan is an authoritative and definitive book on Africa's largest country that captures and depicts all aspects of Sudan from its roots in ancient Nubia to its modern petroleum economy current development under a stable and progressive political environment and immense future possibilities The Handbook provides a more complete and up to date account of Sudan than has ever been published before *Recent Geographical Literature, Maps and Photographs* Royal Geographical Society (Great Britain),1919 *Recent Geographical Literature, Maps, and Photographs Added to the Society's Collection* ,1923

Custodians of the Commons Charles Lane,2014-04-23 An examination of the conflicts facing traditional pastoralist societies within the developing nations of Africa The book explores the forms of traditional land tenure and access to grazing resources which are being increasingly eroded by modern forms of ownership and development It shows how communal land tenure arrangements are essential not only for the survival of these societies but also to manage the pastures and rangelands in question The case studies are by local experts They cover Kenya Mali Senegal Mauritania Sudan Tanzania and Uganda Each looks at the political and legal context trends in pastoral development causes of conflict procedures for resolving conflict and environmental implications *Archaeology and Geology of Ancient Egyptian Stones* James A.

Harrell,2024-05-02 This book seeks to identify and describe all the rocks and minerals employed by the ancient Egyptians using proper geological nomenclature and to give an account of their sources in so far as they are known The various uses of the stones are described as well as the technologies employed to extract transport carve and thermally treat them **The Geographical Journal** ,1930 Includes the Proceedings of the Royal geographical society formerly published separately

Bibliography of Soils of the Tropics: Tropics in general and Africa Arnold Clifford Orvedal,1975 *Hunger Hotspots* Food and Agriculture Organization of the United Nations,WFP, In the current edition of a regular joint bi yearly report the Food and Agriculture Organization of the United Nations FAO and the World Food Programme WFP warn that acute food insecurity is likely to worsen across 13 countries and territories identified as hotspots during the outlook period from June to October 2025 The Sudan Palestine South Sudan Haiti and Mali remain hotspots at the highest concern level while Yemen the Democratic Republic of the Congo and Myanmar are classified as hotspots of very high concern Other hotspots are Afghanistan Burkina Faso Chad Somalia and the Syrian Arab Republic Since the October 2024 edition Afghanistan and the Democratic Republic of the Congo have been elevated to hotspot status Conversely regional clusters in East Africa Ethiopia and Kenya and Southern Africa Lesotho Malawi Mozambique Namibia Zambia and Zimbabwe as well as

Niger are no longer classified as hotspots due to improvements in climatic conditions Nigeria and Lebanon are also no longer classified as hotspots due to some improvement in the economic situation and a reduction in the intensity of military operations respectively Although these countries are no longer considered hotspots for the outlook period future economic and conflict related shocks or climatic shifts could lead to their reclassification For the outlook period funding for food and nutrition assistance falls critically short Funding for humanitarian assistance must not be reduced Instead urgent assistance should be scaled up to protect livelihoods and improve food access across all hunger hotspots This report outlines country specific recommendations for urgent emergency responses as well as anticipatory actions to meet existing humanitarian needs and implement short term protective interventions before new crises emerge The report focuses on the most severe and deteriorating acute hunger situations but it does not represent all countries territories experiencing high levels of acute food insecurity
