*Gem S Atlas for Mid. Class* Pushpa Jain, Completely updated the atlases provide information according to the various syllabi and have been prepared as per NCF 2005 The atlases have a geographical cultural and environmental approach Simple presentation yet comprehensive coverage Colourful photographs visually represent the information given in the maps The introductory pages explain and clarify some very basic geographical concepts which are essential for a clear understanding of map reading      Triadic Coercion Wendy Pearlman,Boaz Atzili,2018-10-16 In the post Cold War era states increasingly find themselves in conflicts with nonstate actors Finding it difficult to fight these opponents directly many governments instead target states that harbor or aid nonstate actors using threats and punishment to coerce host states into stopping those groups Wendy Pearlman and Boaz Atzili investigate this strategy which they term triadic coercion They explain why states pursue triadic coercion evaluate the conditions under which it succeeds and demonstrate their arguments across seventy years of Israeli history This rich analysis of the Arab Israeli conflict supplemented with insights from India and Turkey yields surprising findings Traditional discussions of interstate conflict assume that the greater a state s power compared to its opponent the more successful its coercion Turning that logic on its head Pearlman and Atzili show that this strategy can be more effective against a strong host state than a weak one because host regimes need internal cohesion and institutional capacity to move against nonstate actors If triadic coercion is thus likely to fail against weak regimes why do states nevertheless employ it against them Pearlman and Atzili s investigation of Israeli decision making points to the role of strategic culture A state s system of beliefs values and institutionalized practices can encourage coercion as a necessary response even when that policy is prone to backfire A significant contribution to scholarship on deterrence asymmetric conflict and strategic culture Triadic Coercion illuminates an evolving feature of the international security landscape and interrogates assumptions that distort strategic thinking      **Children's Illustrated World Atlas** DK,2017-07-04 A visual atlas that brings the world and its people to life with modern mapping pictures facts and stories perfect for kids ages 8 12 and fully revised and updated Using modern mapping based on the latest seamless cloud free satellite image data Children s Illustrated World Atlas takes kids on the ultimate round the world trip from the Americas to Australasia and Oceania Each detailed map is accompanied by pictures and stories that explore the society culture and history of each region giving young readers an immediate sense of place not conveyed in standard atlases Bite size country by country facts and stats are included at the start of each chapter for additional knowledge and a place name index identifies 7 500 locations around the world Kids will even learn about popular discussion topics such as globalization the environment and the communication revolution in a contemporary introduction section Together with facts maps satellite images and local stories this fully updated and revised Children s Illustrated World Atlas is a global yet personal experience and brings together views from all
