From Meaning of Working to Meaningful Lives: The Challenges of Expanding Decent Work Annamaria Di Fabio,David L. Blustein,2016-09-21 This Research Topic explores issues that are central to the continued relevance of organizational and vocational psychology and equally central to the well being of individuals and communities

The cohering theme of this publication revolves around the question of how people can establish meaningful lives and meaningful work experiences in light of the many challenges that are reducing access to decent work. Another essential contextual factor that is explored in this volume is the Decent Work Agenda International Labour Organization 2008 which represents an initiative by the International Labour Organization. In this book we hope to enrich the Decent Work Agenda by infusing the knowledge and perspectives of psychology into contemporary discourses about work and well being. Another inspiration for this project emerged from the UNESCO Chair in Lifelong guidance and counseling recently established in Poland in 2013 under the leadership of Jean Guichard which has focused on advancing research and policy advocacy about decent work. This new era calls for an innovative perspective in constructing decent work and decent lives, the passage from the paradigm of motivation to the paradigm of meaning where the sustainability of the decent life project is anchored to a meaningful construction. During this period when work is changing so rapidly leaving people yearning for a sense of connection and meaning it is fundamental to create a framework for an explicitly psychological analysis of decent work.

Handbook of Psychopathy Christopher J. Patrick, 2018-04-23 Widely considered the go to reference and now extensively revised with over 65% new material this authoritative handbook surveys the landscape of current knowledge on psychopathy and addresses essential clinical and applied topics. Leading researchers explore major theoretical models, symptomatology and diagnostic subtypes, assessment methods, developmental pathways and causal influences from genes and neurobiology to environmental factors. The volume examines manifestations of psychopathy in specific populations as well as connections to antisocial behavior and recidivism. It presents contemporary perspectives on prevention and treatment and discusses special considerations in clinical and forensic practice.

New to This Edition: Extensively revised with more than a decade's theoretical, empirical and clinical advances. Many new authors and topics. Expanded coverage of phenotypic facets with chapters on behavioral disinhibition, callous-unemotional traits and boldness. Chapters on DSM 5 clinical interviewing, cognitive and emotional processing and serial murder. Significantly updated coverage of etiology, assessment methods, neuroimaging research and adult and juvenile treatment approaches.

Foreign Language Teaching and Learning in Chinese Higher Education: Emerging Challenges Wei Xu, Wu Ping, Priscilla Roberts, 2025-10-21 The teaching and learning of foreign languages such as English, Japanese, French, Portuguese, Arabic etc have become increasingly important in Chinese higher education over the past decade. The application of traditional educational concepts and approaches to the increasingly diverse contexts of foreign language education in the globalized

world has created deep seated tensions and challenges for Chinese universities Research has previously examined the relationship between teaching methods and student performance as well as the impact of globalization on foreign language pedagogy in China As part of the development of foreign language education a variety of educational settings have faced culturally specific challenges These challenges include the need to adapt to evolving technologies the changing needs of learners and the changing demands of the job market etc China s large population and diverse culture have necessitated the development of effective teaching methods and materials for foreign language instruction

Forced Migration in Education: Challenges and Opportunities Vibeke Solbue, Yuka Kitayama, Ailbhe Kenny, 2026-03-05 Worldwide people are fleeing war climate change political and economic crises as well as persecution Almost half of these refugees however have no access to education While refugees are often included in research on immigrants in education they hold a unique position which warrants specific attention The educational policies and practices for refugees vary reflecting differing approaches to integration diversity and inclusiveness What is clear however is that education plays a crucial role in meeting the needs and rights of those seeking refuge This issue aims to explore and understand educational responses to refugee education Within educational research on immigration and inclusion refugees perspectives are often included but different challenges exist than for other migrants Therefore this Research Topic intends to gain increased knowledge about refugee education from a variety of contexts and differing perspectives in order to provide nuanced understandings of the field In particular the topic aims to highlight the transformational opportunities that refugees can offer that are often missed or silenced due to existing educational systems based on modernist national structures By gaining increased knowledge about the challenges of refugee education but also opportunities we hope to collectively challenge the field of education to better accommodate and facilitate educational experiences from both global and local perspectives Against this backdrop this Research Topic seeks to address refugees in education from varying contexts for instance education in refugee camps in separate introductory classes in preschool primary education secondary education adult education and higher education Different professional perspectives such as languages the arts as well as other subjects are of interest as well as broader topics such as the policies and rights of refugees in education Articles that present quantitative qualitative or mixed methods research are welcomed to show both breadth and depth in the topic Comparative studies are of interest as well as articles that employ narrative research
