## **The Nervous System:**

The Nervous System, E-Book Adina T. Michael-Titus, Peter Shortland, 2022-06-11 The Systems of the Body series has established itself as a highly valuable resource for medical and other health science students following today's systems based courses. Now thoroughly revised and updated in this third edition, each volume presents the core knowledge of basic science and clinical conditions that medical students need, providing a concise, fully integrated view of each major body system that can be hard to find in more traditionally arranged textbooks or other resources. Multiple case studies help relate key principles to current practice, with links to clinical skills, clinical investigation, and therapeutics made clear throughout. Each print volume also now comes with access to the complete enhanced eBook version, offering easy anytime anywhere access, as well as self-assessment material to check your understanding and aid exam preparation. The Nervous System provides highly accessible coverage of the core basic science principles in the context of clinical case histories, giving the reader a fully integrated understanding of the system and its major diseases.

**The Nervous System** Adina T. Michael-Titus, Patricia Revest, Peter Shortland, 2014-04-11 This is an integrated textbook on the nervous system covering the anatomy, physiology, and biochemistry of the system, all presented in a clinically relevant context appropriate for the first two years of the medical student course. One of the seven volumes in the Systems of the Body series. Concise text covers the core anatomy, physiology, and biochemistry in an integrated manner as required by system and problem-based medical courses. The basic science is presented in the clinical context in a way appropriate for the early part of the medical course. There is a linked website providing self-assessment material, ideal for examination preparation.
