The Old Bridge:

Supreme Court, 1875 Media and The City Chiara Giaccardi, Matteo Tarantino, Simone Tosoni, 2014-07-18 The percentage of people living in cities and the adoption rates of communication technologies continue to grow across the planet Our age has come to be defined as one of urbanism and communication but how are those two intertwined How do they shape each other Where and in which ways do they diverge support or fold into each other As new tensions emerge and old ones find new solutions social sciences are forced into a dialogue with media studies and urban studies in order to make sense of the new reality New theoretical and methodological paradigms are urgently needed and can be produced only through a fertile and eclectic dialogue This volume presents some of the latest research in this exciting cross disciplinary field Issues of conflict mobility crime art memory ethnicity identity and city marketing and branding come under rigorous scrutiny in their mutual and constitutive relationship with urban space and communicative technologies and practices The volume is divided into three broad sections The first section deals with the role of media in the social production of urban space that is with how media interact with other forces in giving shape to the materiality of the city The second section deals with how urban space acts as a context for a variety of media related practices especially in relation to the popularization of mobile geo localization technologies which have given us mass phenomena such as Foursquare The third and final section deals with how urban space is mediated and communicated through ICTs or in other terms how urban space is represented by specific media through specific discursive strategies

The Old Bridge William J. Locke, 2022-08-01 In The Old Bridge presented by DigiCat Publishing William J Locke weaves a poignant narrative rich with the contemplative air of introspection and the seasoned maturity of a seasoned author Locke s stylistic flourish is evident in the meticulous crafting of the scenes that bring the story to life harmonizing a reflective literary style with a clear eyed examination of the human condition Within the greater literary context this work stands as a testament to the transitional period of early 20th century literature where the echoes of Romanticism merged with the precursors of Modernism capturing the intricacies of personal and social change nnWilliam J Locke s literary prowess is shaped by the subtle interplay between his own life experiences and his acute observation of societal nuances Known for his exploration of the complexities of love honor and societal expectations Locke s writing is both deeply personal and universally resonant It is evident that The Old Bridge encompasses Locke s intimate understanding of the ephemeral nature of human relationships and legacies reflecting his capacity to distill the essence of times gone by into timeless narratives nnReaders who delight in the meticulous unravelling of the human spirit across the weft of history will find The Old Bridge a compelling addition to their library Locke s work invites us to traverse the delicate spans between past and present memory and aspiration life s transience and literature s enduring voice It is a novel that not only pays homage to the gently fading echo of an older era but also revives its wisdom for the contemporary reader s contemplation and pleasure

Bosnia and the Destruction of Cultural Heritage Helen Walasek, contributions by Richard

Carlton, Amra Hadžimuhamedović, Valery Perry, Tina Wik, 2016-03-03 The massive intentional destruction of cultural heritage during the 1992-1995 Bosnian War targeting a historically diverse identity provoked global condemnation and became a seminal marker in the discourse on cultural heritage. It prompted an urgent reassessment of how cultural property could be protected in times of conflict and led to a more definitive recognition in international humanitarian law that destruction of a people's cultural heritage is an aspect of genocide. Yet surprisingly little has been published on the subject. This wide-ranging book provides the first comprehensive overview and critical analysis of the destruction of Bosnia and Herzegovina's cultural heritage and its far-reaching impact. Scrutinizing the responses of the international community during the war, including bodies like UNESCO and the Council of Europe, the volume also analyses how, after the conflict ended, external agendas impinged on heritage reconstruction to the detriment of the broader peace process and refugee return. It assesses implementation of Annex 8 of the Dayton Peace Agreement, a unique attempt to address the devastation to Bosnia's cultural heritage, and examines the treatment of war crimes involving cultural property at the International Criminal Tribunal for the former Yugoslavia (ICTY). With numerous case studies and plentiful illustrations, this important volume considers questions which have moved to the foreground with the inclusion of cultural heritage preservation in discussions of the right to culture in human rights discourse and as a vital element of post-conflict and development aid.
