The Sudan Unity And Diversity In A Multicultural State:

The Sudan John Obert Voll, Sarah Potts Voll, 2016-10-04 Little known in the United States and Western Europe the Sudan is nevertheless a country of major importance in international affairs This analytic introduction to the modern Sudan first published in 1985 provides a summary of the basic dynamics of the country's political social cultural and economic life as well as a general framework for interpreting the modern Sudanese experience The authors present a clear picture of the Sudan as a distinctive entity with an identity all its own revealing however that almost paradoxically one of the most significant aspects of that identity is the place of the Sudan as a special link between different cultural patterns and socio political styles The Sudan is both a bridge and a melting pot and this provides the foundation of its unique character

Dynamics of Regional Politics William Howard Wriggins, 1992 *Dynamics of Regional Politics* explores the patterns of international conflict and cooperation in four geographical subsystems the Horn of Africa the Persian Arabian Gulf the South Asian subcontinent and Southeast Asia Wriggins's book argues that to understand how the end of the Cold War will affect these areas it is necessary to look closely at their individual dynamics over time to differentiate characteristics that are intrinsic to the regions from those caused by the Cold War involvement of the United States and the Soviet Union

Sudan's Wars and Peace Agreements Stephanie Beswick, Jay Spaulding, 2010-07-12 Originating from the 2008 27th annual conference of the Sudan Studies Association SSA of the same title these essays document and analyze Sudan's chronic history of conflict since independence in 1956 as well as its own and international efforts to bring an end to these conflicts As the country moves toward what some see as the inevitable separation of South Sudan in 2011 honoring the principle of self determination long fought for by southerners the lessons of six decades of a history of war and peace agreements is both telling and compelling This analysis is offered by the real experts on Sudan rather than the usual story offered by journalists and pundits In addition to an Introduction by the editors all founders or current or past presidents of the SSA the essays by Sudanese and non Sudanese explore the often bitter history of North South relations and loss of life leading to the consideration of a range of options from a continuation of national unity under revised terms to federation or redivision to full separation of the South and the constitution of a new African state The role of the Khartoum government's pursuit of policies of Islamization and Islamism for a quarter of a century across multiple regimes is also treated The central question of constructing a sustainable peace irrespective of the outcome in 2011 is detailed along with the essential consideration of women and gender perspectives to sustain any peace negotiated This book is must reading in advance of or in response to the crucial events as they unfold in Sudan in 2011 and beyond

The Roots of African Conflicts Alfred G. Nhema, Paul Tiyambe Zeleza, 2008 This work along with *The Resolution of African Conflicts* clearly demonstrates the efforts by a wide range of African scholars to explain the roots routes regimes and resolution of African conflicts and how to rebuild post conflict societies

Nations without States James B. Minahan, 1996-01-19 Russians are suppressing the Chechen Ibo

nationalism may yet tear Nigeria apart With the end of the Cold War any of the world's stateless peoples could be in tomorrow's headlines This book provides an essential guide to the stateless nations suppressed or ignored during the Cold War In more than 200 national surveys the volume highlights the historical political social economic and diplomatic evolution of many of the currently emerging nations without states Including nations from all continents from the Chechen in Eastern Europe to the Ibo in Africa and the Quebeckers in North America the book addresses the current nationalist resurgence by focusing on the most basic element of any nationalism the nation itself The book provides the only source of concise information on stateless nations Each entry includes the nation's name and alternative names population statistics information on major languages and religions geographical information independence declarations information on the national flag a brief sketch of the primary national group or groups and a profile of the nation's history and national development to the present A chronological appendix of declarations of independence helps to set the waves of nationalism in an historical context A second appendix provides a geographic listing by region and nation of national organizations

The Root Causes of Sudan's Civil Wars Douglas Hamilton Johnson, 2003 The civil war in the Sudan is one of Africa's longest and most intractable conflicts Once confined to the southern Sudan fighting has now spread to other parts of the country and across international borders
