**Intolerant Religion in a Tolerant-Liberal Democracy** Yossi Nehushtan, 2016-01-21 This book aims to examine and critically analyse the role that religion has and should have in the public and legal sphere The main purpose of the book is to explain why religion on the whole should not be tolerated in a tolerant liberal democracy and to describe exactly how it should not be tolerated mainly by addressing legal issues The main arguments of the book are first that as a general rule illiberal intolerance should not be tolerated secondly that there are meaningful unique links between religion and intolerance and between holding religious beliefs and holding intolerant views and ultimately acting upon these views and thirdly that the religiosity of a legal claim is normally a reason although not necessarily a prevailing one not to accept that claim

**Stereotypes and the Construction of the Social World** Perry R. Hinton, 2019-10-16 Stereotypes and the Construction of the Social World explores the complexity of stereotypes guiding the reader through issues of definition and theoretical explanations from psychology and other disciplines The book examines why people use stereotypes which have often been represented as inaccurate rigid and discriminatory If that is what they are then why would people employ such faulty or biased views of others Whilst this book presents a detailed and comprehensive analysis of the psychological research into the individual use of stereotypes it also presents this research within its ideological and historical context revealing the important sociocultural factors in what we mean by stereotypes From the politics of representation and inter group power relations alongside individual social cognitive issues the book provides a comprehensive and cross disciplinary account of stereotypes and stereotyping Featuring a wealth of real world examples it will be essential reading for all students and researchers of stereotypes

*Tolerance Between Intolerance and the Intolerable* Paul Ricoeur, 1996 It seems more urgent than ever before to fend off the rising wave of intolerance and at the same time determine the nature of tolerance and its limits As Ricoeur says in his Foreword Tolerance is a tricky subject too easy or too difficult It is indeed too easy to deplore intolerance without putting oneself into question oneself and the different allegiances with which each person identifies In order to explore these complexities he has gathered together a number of prominent thinkers from various parts of the world and areas of activity and invited them to reflect on the obstacles and limits to tolerance The Declaration of Principles on
