Secret Spaces: Sacred Treasuries in England 1066-1320 Lesley Milner, 2024-05-27 The medieval treasure house consisting of sacristy vestry and treasure rooms was the depository for the ecclesiastical treasure belonging to a church holy vessels vestments altar hangings candlesticks and priceless liturgical books and reliquaries It was carefully designed to convey the message of its status and function A book devoted to these medieval museums which housed such precious materials is long overdue Ironically the interest in the objects that they conserved has often resulted in ecclesiastical treasure being removed to new museums leaving their former places of protection in need of protection themselves
