Hans Ferdinand Helholt (1865- ed)

The World Of The Inca:

The World of the Inca Bertrand Flornoy,1956 Inca civilization and why it fell so easily to Spanish conquest **The World of the Incas** William Hickling Prescott,1989 The World of the Inca Bertrand Flornoy,1958 **The Incas' Sky** Émile Biémont,2024-07-12 This book introduces readers to the astonishing civilisation of the Incas Its novelty lies in its general but highly informative synthesis of their history and astronomy through the accounts of contemporary chronicles and recent archaeological findings Richly illustrated with the author s own photographs it will attract the attention of seasoned travellers interested in ancient civilisations and keen to discover what people were capable of achieving so long ago but also any reader interested in the history and prehistory of South American peoples including students or university researchers wanting to know more about the pre Columbian civilizations of Peru The Inca civilisation was in fact the culmination of cultural contributions from a dozen or so complex pre Columbian civilizations such as those of Chav n Nazca Wari or Tiwanaku Intensely spiritual the Inca people attributed metaphysical powers to all manner of objects and places they considered sacred but at the same time the numerous alignments in their buildings show that they result from careful observations of the Sun the Moon and the stars at different times of the year Indeed the Incas were an essentially agrarian people so time measurement and calendar devices were essential for the purely pragmatic problem of planning agricultural tasks during the tropical year The book sets out to describe the Incas in their historical and geographical context avoiding specialization or excessive technicality but retaining a certain scientific rigor and including a detailed consideration of their interest in the sky and astronomy The World of Incas William Hickling Prescott,1970 **Royal Commentaries of the Incas and General History of Peru, Parts One and Two** Garcilaso de la Vega,2014-05-12 The two part classic history of the Incan empire s origin and growth as well as their demise following the arrival of the Spaniards Garcilaso de la Vega the first native of the New World to attain importance as a writer in the Old was born in Cuzco in 1539 the illegitimate son of a Spanish cavalier and an Inca princess Although he was educated as a gentleman of Spain and won an important place in Spanish letters Garcilaso was fiercely proud of his Indian ancestry and wrote under the name El Inca Royal Commentaries of the Incas is the account of the origin growth and destruction of the Inca empire from its legendary birth until the death in 1572 of its last independent ruler For the material in Part One of Royal Commentaries the history of the Inca civilization prior to the arrival of the Spaniards Garcilaso drew upon what I often heard as a child from the lips of my mother and her brothers and uncles and other elders of the origin of the Inca kings their greatness the grandeur of their empire their deeds and conquests their government in peace and war and the laws they ordained so greatly to the advantage of their vassals The conventionalized and formal history of an oral tradition Royal Commentaries describes the gradual imposition of order and civilization upon a primitive and barbaric world To this Garcilaso adds facts about the geography and the flora and fauna of the land the folk practices religion and superstitions the agricultural and the architectural and engineering achievements of

the people and a variety of other information drawn from his rich store of traditional knowledge personal observation or speculative philosophy Important though it is as history Garcilaso's classic is much more it is also a work of art Its gracious and graceful style skillfully translated by Harold V Livermore succeeds in bringing to life for the reader a genuine work of literature
