In the Potter's Workshop Robert P. Vande Kappelle, 2019-03-08 When you think of God what images come to mind Do you see God in others Do you acknowledge God's presence in each circumstance and situation of your everyday life no matter how trivial How you conceive God determines how you experience God As contemporary author Frederick Buechner advises Listen to your life Listen to what happens to you because it is through what happens to you that God speaks While spiritual life of some kind is necessary for psychological health psychotherapist Thomas Moore indicates in *Care of the Soul* that excessive or ungrounded spirituality can be dangerous leading to compulsive and even violent behavior It is better for religious seekers to embrace a religious practice that has been tested and refined over time than to experiment solo or by joining some exotic new sect In this book Dr Vande Kappelle explores the richness of Catholic and Protestant spiritual traditions and the power of intuition and imagination to chart an approach to the sacred that is simple practical and effective Holistic religion requires three elements in creative tension a historical or institutional element a mystical or emotional element and an intellectual or scientific element If you want to know what this means and how it is accomplished read this book Designed as a study guide for group or individual use *In the Potter's Workshop* will challenge and inspire you to experience God in ways that are sustainable and transformative

The Death of Industrial Civilization Joel Jay Kassiola,1990-08-14 The Death of Industrial Civilization explains how the contemporary ecological crisis within industrial society is caused by the values inherent in unlimited economic growth and competitive materialism Kassiola shows that the limits to growth critique of industrial civilization is the most effective stance against what seems to be a dominant and invincible social order He prescribes the social changes that must be implemented in order to transform industrial society into a sustainable and more satisfying one Popular Culture and the Political Values of Neoliberalism George A. Gonzalez,2019-02-01 Reality is made up of the Absolute and Causality The absolute most saliently philosophized about by Georg Hegel is where normative values inhere Causality can be described as the measurable effects of the normative values of the absolute and the laws of physics also ostensibly a product of the absolute Humans are special insofar as they access the higher aspects of the Absolute altruism compassion love humor science engineering etc The Absolute also contains what can be considered the less attractive values or impulses greed lust for power hate self centeredness conceit etc Predicating society on what I deem the lower spirits aspects of the absolute most prominently greed results in personal social dysfunction and ultimately the end of civilization Conversely a society based on justice is stable and vibrant Justice is a classless society free of gender and ethnic biases My argument is based on popular culture especially the Star Trek franchise One implication of my thesis is that capitalist values generate psychological neurosis and societal instability even catastrophe Additionally the political values that dominate the current neoliberalist world system and especially the American government are the other the will to power resulting in war and global political instability Popular culture is germane to philosophy and contemporary politics because television movie creators frequently try to attract viewers by conveying authentic philosophical and political motifs Conversely viewers seek out authentic movies and

television shows This is in contrast to opinion surveys for instance as the formation of the data begins with the surveyor seeking to directly solicit an opinion however impromptu or shallow

Wealth Conundrum Ralph Doudera, 2006 A money manager who handles millions of his own and others wealth describes his struggles with loving money vs giving it away to the needy

Money Drunk/Money Sober Mark Bryan, Julia Cameron, 1999-02-09 In a society where it is often easier to discuss sex than money many of us have hidden issues about personal finances But when fending off bill collectors begging for salary advances or borrowing from relatives becomes a way of life unresolved money problems can lead to enormous stress and destroy relationships careers and lives Do you recognize yourself or someone you love in any of these descriptions

THE COMPULSIVE SPENDER Do you buy things and hide them

THE BIG DEAL CHASER Do you refuse to watch your money because one big deal is going to make everything all right

THE MAINTENANCE MONEY DRUNK Is the pay the only thing you like about your job

THE POVERTY ADDICT Do you feel morally superior to people with money

THE CASH CODEPENDENT Are you afraid to say no to your partner about money

Through their highly effective seminars Mark Bryan and Julia Cameron have helped many people get out of debt and free themselves from the painful cycle of acting out with money

The Money Drunk offers new perspectives on the real roots of money problems showing how to dismantle negative family and societal programming about money and how to undo the destructive patterns that sabotage your financial success

The program teaches new more constructive habits to anyone who has ever had a problem with money

Addiction and Responsibility Francis F. Seeburger, 1993 Is addiction a disease a behavior disorder a moral failing Is it genetic or learned What is it like to be addicted What are its roots and how can it be uprooted

Anyone who has wrestled with such basic questions about addiction will find welcome answers in this groundbreaking philosophical inquiry into the addictive mind

The author helps readers to understand addiction existentially as a fundamental way in which we can be

Addiction argues the author bears witness to a basic human longing that no thing can satisfy It is a distortion of that longing one that misses its mark the original meaning of sin It leads to a complex process of disownment in which the addict strips himself of ownership over himself and his own life

Genuine freedom from addiction ultimately requires practicing a radical form of detachment in which we allow ordinary experience to wash over us with the full force of its true extraordinariness

This reverses the process of disownment and returns us to ourselves

In such detachment we are given back responsibility the ability truly to respond to events rather than just reacting to them

This major work is addressed to all those who have ever had to face addiction either in themselves or in those they love and who are still struggling to understand it

Mining both Western and Eastern sources psychology and spirituality as well as philosophy

Addiction and Responsibility brings an important topic to a new level
