New South Indians Christopher Arris Oakley, 2024-01-12 The Eastern Band's economic decisions of the 1900s did not occur in a vacuum. In fact, these decisions reflected regional changes and the broader development of the post-Civil War American South. The Eastern Band of Cherokee Indians formally incorporated under North Carolina law in the 1880s, and their economic policies evolved as the country experienced Jim Crow segregation, the Great Depression, World War II, and the civil rights movement. During the twentieth century, members of the Eastern Band embraced an economic strategy partially based on tourism. In the late 1900s, they pursued policies that facilitated the rise of casino gaming. Divided into five chapters, Christopher Arris Oakley's *New South Indians* traces the economic development of the Eastern Band throughout the twentieth century to better contextualize the Cherokee Tribal Council's 1990s decision to incorporate gaming into the nation's economic strategy. In building his contextual framework, Oakley discusses the interdependent relationships forged by Cherokee Tribal Council members with various public and private entities in order to protect their land, manage their resources, and advance the well-being of their nation's economy and community. *New South Indians* also situates the story within the history of the American South. Thus, the saga of the Eastern Band's struggle for economic autonomy and financial stability throughout the stormy twentieth century can be seen as an integral part of the historical account of western North Carolina. A multifaceted glimpse into a vital aspect of contemporary southern history, *New South Indians* is sure to appeal to a wide variety of readers, from those captivated by Native American culture and the history of the modern South to those interested in economic history.

Ngarrindjeri Wurruwarrin Diane Bell, 1998-08-01 This finely textured ethnography weaves written texts with the voices of women and men who struggle to protect their sacred sites. It provides a deeper understanding of lives profoundly affected by two centuries of colonization.

We Have Raised All of You Katy Simpson Smith, 2013-11-04 White, black, and Native American women in the early South often viewed motherhood as a composite of roles ranging from teacher and nurse to farmer and politician. Within a multicultural landscape, mothers drew advice and consolation from female networks, broader intellectual currents, and an understanding of their own multifaceted identities to devise their own standards for child-rearing. In this way, by constructing, interpreting, and defending their roles as parents, women in the South maintained a certain degree of control over their own and their children's lives. Focusing on Virginia and the Carolinas from 1750 to 1835, Katy Simpson Smith's study examines these maternal practices to reveal the ways in which diverse groups of women struggled to create empowered identities in the early South. *We Have Raised All of You* contributes to a wide variety of historical conversations by affirming the necessity of multicultural, not simply biracial, studies of the American South. Its equally weighted analysis of white, black, and Native American women sets it distinctly apart from other work. Smith shows that while women from different backgrounds shared similar experiences within the trajectory of motherhood, no universal

model holds up under scrutiny Most importantly this book suggests that parenthood provided women with some power within their often circumscribed lives Alternately restricted oppressed belittled and enslaved women sought to embrace an identity that would give them some sense of self respect and self worth The rich and varied roles that mothers inherited Smith shows afforded women this empowering identity

Cherokee Basketry M. Anna Fariello, 2009-09-30 A tradition that dates back almost ten thousand years basketry is an integral aspect of Cherokee culture Cherokee Basketry describes the craft s forms functions and methods and records the tradition s celebrated makers In the mountains of Western North Carolina stunning baskets are still made from rivercane white oak and honeysuckle and dyed with roots and bark This complex art passed down from mothers to daughters is a thread that bonds modern Native Americans to ancestors and traditional ways of life Anna Fariello associate professor at Western Carolina University reveals that baskets hold much more than food and clothing Woven with the stories of those who produce and use them these masterpieces remain a powerful testament to creativity and imagination

while white settlers and institutions powerfully influenced Indigenous educational practices they never stopped Native peoples from educating one another on their own terms In this ambitious and imaginatively conceived book Julie L Reed uses Cherokee teaching and learning practices spanning more than four centuries to reframe the way we think about Native American educational history Reed draws on archaeological evidence from Southeastern US caves ethnohistorical narratives of Cherokee syllabary development records from Christian mission schools Cherokee Nation archives and family and personal histories to reveal surprising continuity amid powerful change Centering the role of women as educators across generations in Cherokee matrilineal society the power of land to anchor learning and the significance of language in expressing sovereignty Reed fundamentally rethinks the nature of educational space the roles played by teachers and learners and the periodization imposed by US settler colonialism onto the Indigenous experience
