Weaving The Net Conditional Engagement With China:

Weaving the Net James Shinn,1996 China is emerging as a new great power in Asia But what kind of power will China become a wealthy trading partner or a belligerent adversary This book argues for an American strategy that acknowledges and is fully prepared to deal with the vast uncertainty about China s future trajectory **The US Policy Making Process**

for Post Cold War China Wenzhao Tao,2017-07-13 Combining a study of American Think Tanks and a study of American diplomatic policy on China following the Cold War this book explores in detail the policy making process procedures and mechanisms as well as the roles of various interest groups in the policy making process for China related policies Further it dissects the policy making process with regard to selected sensitive policies such as the US diplomatic policy on Taiwan China US trade policy on China US human rights policy on China and US environmental and energy policy on China and analyzes the function and influence of the American Think Tanks in the policy debates Characterized by its high theoretical value wealth of historical materials and painstaking analysis the book is not only of important academic value but also offers a valuable reference guide to support the practical work of related departments in the Chinese government **What if**

China Doesn't Democratize? Edward Friedman,Barrett L. McCormick,2015-06-11 Exploring one of the most dynamic and contested regions of the world this series includes works on political economic cultural and social changes in modern and contemporary Asia and the Pacific **Challenges Facing Chinese Political Development** Sujian Guo,Baogang

Guo,2007-01-01 Examining the challenges of Chinese political development from a holistic perspective each of the authors emphasizes a particular dimension of political culture political economy foreign policy and environmental and social challenges **Multilateral Asian Security Architecture** See Seng Tan,2015-07-16 This book provides a comparative

assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia s multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN s significance to the successes and failures of Asia s multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia s regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics

international organisations security studies and IR more generally **China's Foreign Policy: Challenges And Prospects** Joseph Yu-shek Cheng,2016-03-15 This volume examines the Chinese foreign policy framework today and traces its evolution

since the post Mao era Through the consideration of China s relations with the major powers and its management of various challenges ranging from territorial disputes to energy security it investigates China s pursuit of major power status and influence in peaceful international scenarios The author critically analyzes China s foreign policy from Chinese leaders evolving worldview of the changing international environment As China emerges as a major power and the second largest economy in the world anyone interested in international politics and scenarios as well as China s foreign policy needs a basic insightful reference book like this **Wearing the Net** James Shinn, China's Grand Strategy Honghua Men,2020-04-20 This book aims to build the ideal model of China s grand strategy framework which is based on three key variables national power strategic concept and international institution Taking the rise of China as an opportunity this book adopts the assessment of national strategic resources as the beginning focuses on the evaluation of strategic capability the choice of strategic orientation the establishment of strategic objectives the planning of strategic content and the implementation of strategic means Further following this main line this book establishes a China s grand strategy framework based on active participation and integration transformation shaping process This book emphasizes that to achieve the goals of China s grand strategy China should uphold this strategic attitude It should not be seduced by praise and should not be made aggressive by criticism It should learn to be glorious but remain humble maintain a wealthy influential but modest position by restraint This book can be regarded as the essence of the author s 20 years long term focus and research on the China s grand strategy The author s postdoctoral tutor Professor Hu Angang s comment of this book can hit the nail on the head This book is a pioneering theoretical study of China s great strategic research and makes a significant contribution to this research field The basic arguments of this book have been submitted through various approaches to decision making references or published in academic papers and have received numerous positive responses and resonance In my opinion the basic ideas and important findings of this book will provide imperative reference to long term strategy decision making process In addition the fundamental theory and analysis method of the book will have an important influence in both domestic and international academic field **China and East Asia** Xin Xu,2003 East Asian Review ,2003 **Japan Review of International Affairs** ,1996 The Japanese Economy ,2001 *American Studies International* ,2000 *Northeast Asian Regional Security Order and Strategic Calculus on the Taiwan Straits* ,2003 Principles Under Pressure Kim Houn Kao,Jeffrey A.
