The Object-Oriented Thought Process Matt Weisfeld, 2008-08-25. The Object Oriented Thought Process Third Edition. Matt Weisfeld. An introduction to object-oriented concepts for developers looking to master modern application practices. Object-oriented programming (OOP) is the foundation of modern programming languages including C, Java, C#, and Visual Basic .NET. By designing with objects rather than treating the code and data as separate entities, OOP allows objects to fully utilize other objects' services as well as inherit their functionality. OOP promotes code portability and reuse but requires a shift in thinking to be fully understood. Before jumping into the world of object-oriented programming languages, you must first master The

Object Oriented Thought Process Written by a developer for developers who want to make the leap to object oriented technologies as well as managers who simply want to understand what they are managing The Object Oriented Thought Process provides a solution oriented approach to object oriented programming Readers will learn to understand object oriented design with inheritance or composition object aggregation and association and the difference between interfaces and implementations Readers will also become more efficient and better thinkers in terms of object oriented development This revised edition focuses on interoperability across various technologies primarily using XML as the communication mechanism A more detailed focus is placed on how business objects operate over networks including client server architectures and web services Programmers who aim to create high quality software as all programmers should must learn the varied subtleties of the familiar yet not so familiar beasts called objects and classes Doing so entails careful study of books such as Matt Weisfeld s The Object Oriented Thought Process Bill McCarty author of Java Distributed Objects and Object Oriented Design in Java Matt Weisfeld is an associate professor in business and technology at Cuyahoga Community College in Cleveland Ohio He has more than 20 years of experience as a professional software developer project manager and corporate trainer using C Smalltalk NET and Java He holds a BS in systems analysis an MS in computer science and an MBA in project management Weisfeld has published many articles in major computer trade magazines and professional journals
