*Hierophantic Landscapes* Richard Leviton, 2011-09-26 The Earth is poised to make a great disclosure Its a hierophant But whats a hierophant A person who reveals the holy light But it can also be a landscape or a planet And whats the holy light It is the structure of reality and consciousness a map of the heavenly realms the engineering blueprint of Creation Some people call this imminent disclosure the Apocalypse and run for cover But that is mistaken Apocalypse means the revelation of the divine revelation It means the end of our picture of the world as we know it The world itself will be fine even better than fine Splendid Illumined The Architect of reality lays down His cards face up and you see the whole deck Here is the truth of yourself and the Earth How will this disclosure work What we call sacred sites and holy landscapes will start revealing themselves in full to us in all their geomantic and visionary richness Thats the inner patterning of their design their arrays of Light temples and subtle palaces primed for our visionary adventures and edification The Earth needs us to have these adventures and visions because thats how we keep the planet healthy Hierophantic Landscapes visits five landscapes from Norway and England to California and Mexico providing firsthand reports on the visions and adventures of a small band of geomancers as they seek to unravel the mysteries of the Earth Maybe not such a small band because along the way we encounter angels landscape devas Nature Spirits and otherworldly mentors and revel in vistas of the ancient past of the Earth when that revelation was as fresh as a sunrise as it

Ensworth,2026-03-17 Explores the 24 000 year precessional cycle and the cultural shifts that accompany the different ages Shows how the energies of the cosmos are guiding us into new paradigms of thought new ways of being and higher levels of consciousness Discusses the interface between the precessional cycle and the Hindu Yuga cycle and the meaning of the profound shift that we in at this time We are approaching the end of a 24 000 year precessional cycle and according to ancient traditions on the cusp of a new age While this time of transition can lead to an evolutionary leap for humanity it can also bring inevitable challenges for those who resist Astrologer and clinical psychologist Heather Ensworth shows that we live in a sentient universe where the energies of the cosmos are guiding us through this transition and into new paradigms of thought new ways of being and higher levels of consciousness By embracing these changes we can navigate the turmoil of transformation into a new age of love harmony and a greater awareness of our interconnectedness Ensworth suggests that the precessional motion that causes the astrological ages is not due to a wobble in the Earth s axis but to the possibility that our sun is part of a binary star system which astronomers have found are more common in the Milky Way galaxy than previously believed The author also teaches us how to realign with the galactic center our source by becoming centered within and harmonizing with the changing cosmos to bring us a deeper sense of meaning and stability The transition into a new age does not need to be a dramatic change that simply happens to us This book shows how we can remember our origins find our center and navigate this changing age with clarity and intention The Science of Breath and the Philosophy of the Tattvas Rāma-Prasāda,1894 **The Science of Breath and the Philosophy of the Tattvas** Rama Prasad,1897 *The science of breath and the philosophy of the tatwas, tr. from the Sansk., with explanatory essays on nature's finer forces* by R.
