suggested some provocation in my second book *Spice Up* with thoughts to be discussed such as AA health perfectionism and automotive insurance abuse just to mention a few As the author to *Straight Up* and *Spice Up* I hope reading these short story collections make these worthwhile books through inspiration and future well thought out decision making on the readers part 6 Target Audience Scientists technicians engineers college students teachers and any bibliophile who likes cognitive picking

2 Is this your first book If not please list other books that you have written These are my first two books *Straight Up* and *Spice Up* Who is Rachel A Frias The author of *Straight Up* and *Spice Up* is offering no advice doesnt sell a potion or magic lotion however would like to offer entertainment A discussion is an investment into better living and these short stories reflect an awareness of human behavior that Rachel A Frias having been a teacher can write about to enjoy in a fictitious presentation in each of these short stories I was brought up in Spain Europe At an early age my American mother Sarah an English teacher would pull me away from the childrens playground to read and do written exercises in English from an American childs magazine Highlights to which we subscribed at the time You can imagine the pain I felt having to leave the playground sweaty and red from playing to just read and do the English homework which other Spanish children did not have At the age of fourteen I attended Oakwood School in NY There I attended a Black English teachers class whom I thought the world of because his English was so prim and proper At Clarkson University one English professor allotted me an A for a short story in which the philosophical discussion of property and destruction I made was within a western setting After working for many years I suffered a back injury which prevented my normal activities I laid down most of the time writing these short stories keeping in mind basic human psychology and philosophy from a technical perspective being an engineer and scientist
