The Camera at War Hilary Roberts,2025-10-23 It is said that the first casualty of war is truth But in the arena of war photography the truth is never simple Drawing on an incredible range of imagery from the Imperial War Museum s vast collection and other major archives around the globe expert curator Hilary Roberts presents a new perspective on the role of image manipulation in this field over the past 170 years exploring the consequences for our understanding of historic and contemporary conflicts From the staged scenes and hand coloured Daguerreotypes of the Crimean War at the very beginning

of conflict photography to the AI generated protest and propaganda imagery of today Roberts explores the myriad ways in which layers of meaning can be added erased or changed completely As *The Camera at War* so powerfully reveals sometimes this has been done in order to present a closer approximation of the truth and sometimes for the causes of national morale subterfuge and control of the winning narrative

BIRTH OF LEGEND Jeffrey Quill, 1986-05-17 [Whitaker's Book List](#), 1991 *In Their Own Words* James A. Oleson, 2007 Over one hundred fighter pilots give personal glimpses of their military careers

VIOLET LIGHTNING John Eric Vining, 2020-11-13 An epic achievement over one hundred years in the making In December 1941 Japan had perhaps the greatest combination of land sea and air forces the world had ever seen and she used these to conquer a huge empire in the Western Pacific and East Asia Yet by August 1945 Japan had been beaten to her knees by the combined power of China Great Britain and the United States Was this destruction inevitable Did Japan have no chance to defeat America and her allies Why would she think she could successfully battle the two greatest industrial powers the world had ever known Great Britain and the United States at the same time Violet Lightning A Blueprint for Japanese Victory in the Pacific 1941 1942 is a sweeping narrative over a century in the making From the first confrontation in 1895 between the United States and Japan over Hawaii to the massive Japanese defeats at Midway and Guadalcanal in 1942 to author John Eric Vining's first interest in the Japanese American conflict in the fall of 1967 by reading *Carrier War in the Pacific* to the fall of 1995 when Vining first put pen to paper on this project and finally to 2020's finished product by Page Publishing Vining reviews a history of the acrimony between Japan and the United States in the first half of the Twentieth Century He then builds what one reviewer calls a chillingly believable scenario for a Japanese victory in the greatest of all wars Violet Lightning poses and answers the question Could Japan really have pulled it off You just might find yourself coming around to a point of view you didn't believe was possible

Flight, 1961 *The Aeroplane*, 1955 *Poster Annual*, 2001 *Jane's All the World's Aircraft*, 1948

Hurricane and Messerschmitt Chaz Bowyer, 1994 Compares and contrasts two military aircraft used during World War II *World War II* Norman Polmar, Thomas B. Allen, 1996 More than 2400 entries covering the people places politics battles weapons and events on the battlefield and on the homefront that shaped the course of the War

The Pentagon Paradox James Perry Stevenson, 1993 Did the U S Navy avoid Congress's explicit direction to navalize the winning design in a flyoff competition by lying to Congress with the argument that the winner was not carrier capable and then develop the losing aircraft into an even worse fighter for its carrier squadrons To find the answer James Stevenson an experienced aviation writer dug through government files and interviewed key players to present this hard hitting behind the scenes account of the development of one of the Navy's current front line aircraft His investigation exposes the politics of Pentagon weapons procurement a process that pits service against service the military against Congress admirals against generals pilots against engineers hard liners against reformers This book provides a developmental history of the F 18 Hornet from drawing board to its results in Desert Storm It is the story of a multi billion

dollar aircraft design war between those military officers who insist that America's interests will be protected best by sophisticated aircraft even if America can afford fewer of them and a group known as the Fighter Mafia who claim that larger numbers have always won in warfare and that for equal dollars America can only produce greater numbers if each one is less sophisticated. He shows that by picking the YF 17 and renaming the F 17 as the F 18 over the clearly superior YF 16 the Navy antagonized the Air Force Congress and its own F 14 community and sparked a major legal battle. Undeterred the Navy took the light cheap YF 17 and loaded it with technology and weight which produced an F 18 that has less maneuverability less acceleration a range no better than the 1952 vintage A 4 and costs almost three times as much as the F 16. From its first flight in 1978 the F 18 performance continued to degrade. Nevertheless in 1992 the Navy asked for additional money to modify the F 18 as the F 18E F. This request was in reality funding for a brand new aircraft which Stevenson calls the F 19 designed to get back to the original requirements and help bail out the financially troubled McDonnell Douglas. In this highly readable study Stevenson takes the reader into the Pentagon's corridors of power where test results are distorted history rewritten and requirements changed to match aircraft performance and the public's trust and treasure squandered. Fascinating yet sobering. The Pentagon Paradox will appeal to everyone interested in the military establishment the future of U.S. forces and how tax dollars are spent.

Forthcoming Books Rose Army, 2000 **Fighter General** Raymond F. Toliver, Trevor J. Constable, 1999

Adolf Galland began World War II in Poland as a lieutenant and squadron commander flying obsolescent biplanes. He ended the war as a Lieutenant General and was again a squadron commander this time flying Me 262 jet fighters. In all of aviation history there is no comparable rise and fall by a fighter pilot. The most famous German ace and fighter leader of his generation Galland's story is simultaneously that of the Luftwaffe Fighter Arm in which he served from foundation to finish. **Fighter General** recounts the career of an outstanding combat leader torn from the fighter cockpit to defend his country and sometimes his own pilots in the bizarre bureaucracy of the Luftwaffe High Command. Galland's battles against the Allied air forces both as a general and in individual combat hold no less drama than his head-on battles with Goering and Hitler. Galland's triumphs and tragedies his friends and his flames his humor and heartaches pulse anew in **Fighter General**. Here in this official biography is real life adventure to shame the wildest fiction.
