Subtle Hedonism:

The Smell Culture Reader Jim Drobnick, 2024-11-01 Smell is fundamental to experience but mired in paradox Stigmatized as animalistic it nonetheless feeds a vast fragrance and marketing industry Considered ephemeral scents have survived throughout the ages in a number of religious practices The Smell Culture Reader provides a much needed overview of what is arguably the most elusive sense From hygiene to aromatherapy the fetid to the fragrant smells are shown to be much more than just an adornment or a nuisance Addressing this engaging sense in redolent detail The Smell Culture Reader demonstrates how essential smell is to sexuality social status personal identity and cultural tradition **The Hare** Ernest Oldmeadow, 1920 *American Church Review*, 1881 *Church Review and Ecclesiastical Register* Nathaniel Smith Richardson, John McDowell Leavitt, Edward Brenton Boggs, Henry Mason Baum, 1881 **The Foul and the Fragrant** Alain Corbin, 1986 In a book whose insight and originality have already had a dazzling impact in France Alain Corbin has put the sense of smell on the historical map He conjures up the dominion that the combined forces of smells from the seductress's civet to the ubiquitous excremental odors of city cesspools exercised over the lives and deaths of the French in the eighteenth and nineteenth centuries *Founders of Modern Psychology* Granville Stanley Hall, 1912 **The Nation**, 1879 **A Syllabus of Ethics** William McKendree Bryant, 1894 *the american church review* rev, henry mason baum, 1881 **American Quarterly Church Review, and Ecclesiastical Register**, 1881 *The Atlantic Monthly*, 1897 *F. M. Dostoevsky and André Gide* Tatiana Vacquier, 1927 *Paul Ricoeur on Hope* Rebecca Kathleen Huskey, 2009 In order to examine fully the nature of human beings Paul Ricoeur crossed disciplinary boundaries in his work moving from phenomenology to social and political thought hermeneutics and ethics Running throughout Ricoeur's work particularly *Fallible Man* *Time and Narrative* *Oneself as Another* and his shorter pieces on hermeneutics ethics and religion is a theme of the human capacity for hope According to Ricoeur hope is a capacity of expectation oriented toward some future action which aims at a good for self and others The conditions for the possibility of hope are the unity and difference that exist within the self in transcendental practical and effective realms and the self's ability to narrate which is made possible by the self's existence within and understanding of time Our capacity for hope is understood via the symbols of good and evil found in myths and sacred writings Furthermore hope is not limited to those who are religious atheists may be just as hopeful as the devout Exploring the nature of hope in Ricoeur's work allows for a greater understanding of hope and a greater ability to cultivate hope in oneself and others **Aspects of German Culture** Granville Stanley Hall, 1881 *Aspects of German Culture* is a book written by Granville Stanley Hall first published in 1881 The book presents an overview of German culture and society during the 19th century with a particular focus on education literature philosophy and the arts Hall explores the distinctive characteristics of German culture such as its strong emphasis on intellectualism and its historical roots in the Protestant Reformation He also examines the role of German universities in shaping the country's cultural and intellectual

landscape as well as the influence of German thinkers such as Kant Hegel and Nietzsche The book provides a valuable insight into the development of German culture and its impact on the wider world making it a must read for anyone interested in European history or cultural studies This scarce antiquarian book is a facsimile reprint of the old original and may contain some imperfections such as library marks and notations Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to their original work **Atlantic Monthly** ,1897 **George Joseph, the Life and Times**

of a Kerala Christian Nationalist George Gheverghese Joseph,2003 This book looks at the life of George Joseph 1887 1938 a South Indian Christian nationalist whose contributions to the Indian freedom struggle have been generally neglected in the literature of the Indian national movement The book is not a straightforward biography it attempts to place the subject of the study in the political and social context of modern Indian history but provides personal glimpses of the man and his humanity Further the book examines how George Joseph influenced or even initiated debates on issues such as the meaning of secularism in India the position of religious minorities of India the reality and extent of the North South divide and the scope and limits of affirmative action for disadvantaged groups all issues of great relevance even in today s India The Faces of Reason Leslie Armour,Elizabeth Trott,2006-01-01 The Faces of Reason traces the history of philosophy in English Canada from 1850 to 1950 examining the major English Canadian philosophers in detail adn setting them in the context of the main currents of Canadian thought The book concludes with a brief survey of the period after 1950 What is distinctive in Canadian philosophy say the authors is the concept of reason and the uses to which it is put Reason has interacted with experience in a new world and a cold climate to create a distinctive Canadian community The diversity of political geographic social and religious factors has fostered a particular kind of thinking particular ways of reasoning and communicating Rather than one grand overarching Canadian way of thinking there are many faces of reason a kind of philosophic federalism The book has two dimensions it is a continuos story which makes a point about the development of philosophical reason in the Canadian context it is a reference work which may be consulted by readers interested in particular figures ideas movements or periods
