Persian Poetry Is The Result Of A Lifelong Study Of The Author In The Interpretation Of Sufi Poetry Sufi Poetry In Popular Parlance Is All About Wine Women About Love And Romance The Author Presents Six Eminent Sufi Poets Of The Pre Timurid Period Including Firdawsi Umar Khayyam Sadi And Six Eminent Poets Of The Timurid Period Including Ibn I Yamin Hafiz And Jami In A Different Context Bringing Out The True Meaning Of The Allegorical Verses Of These Poets Without Any Bias The Book Offers An Insight Into The Softness And Subtlety Of Their Poetry Combined With Crystal Like Clarity Of Their Philosophical And Ethical Thinking *Essays in Islamic Sufi-ism* ,1990 *Sufi Cults and the Evolution of Medieval Indian Culture* Anup Taneja,2003 Presents various facets of the evolution and spread of the Sufi influence in India and a critical evaluation of the role played by the Sufi saints belonging to different silsilas both by way of disseminating the Sufi ideology among the Indian masses and also assimilating and imbibing into their own ideology some of the indigenous spiritual practices and techniques as practised by the Hindu yogis and siddhas thus paving the way in the process for the establishment of a pluralist society in India on a firm footing Among the galaxy of Sufi saints who came to India the four names which stand out prominently are Shaikh Mu in ud Din Chishti Shaikh Farid ud Din Ganj i Shakar Baba Farid Shaikh Nizam ud Din Auliya and Amir Khusrau Shaikh Mu in ud Din came to India at the close of the twelfth century On the occasion of his urs lakhs of people congregate to pay obeisance to the great Sufi master at his dargah in Ajmer Today the dargahs of the great Sufi masters have become objects of veneration and places of pilgrimage for lakhs of devout people owing allegiance to different religious belief systems These holy places stand as epitomes of communal harmony and universal love and brotherhood *Reflections of Tasawwuf* Charles Upton,2008 Sufism is the practice of remaining aware of the real presence of God in every circumstance until Certainty is reached The dizzying complexity of Sufi metaphysics the passionate beauty of Sufi poetry and the profound Sufi science of spiritual psychology are all based on this The Sufi Path is the process of spiritual transformation ultimately resulting God willing in self transcendence produced by the Certainty of God s presence In traditional Muslim society many different moral intellectual and spiritual functions were performed by those estates responsible for maintaining them Parents imams and grammar school teachers transmitted the fundamental ritual and moral principles of Islamic society The madrasas took care of such traditional sciences as Qur anic exegesis and the study of prophetic ahadith The schools of fiqh maintained and applied the shari ah The mutakallimiin developed and taught kalam Islamic scholastic theology The falasifa or philosophers carried on an intellectual tradition largely inherited from the Greeks The ishraqiyyun developed a mystical theosophy based on direct spiritual insight Physicians employed systems of healing derived in part from metaphysics Poets often transmitted sophisticated spiritual lore many other traditional craftsmen did the same The mathematicians astronomers and other scientists sought to uncover the Signs of God in numbers in geometrical shapes and in the heavens And the alchemists worked on the reconstitution of the original human form al fitra in psycho physical terms So when a seeker applied for admittance to a Sufi tariqa he likely knew his Goal The lower rungs of the ladder

of moral intellectual and spiritual aspiration were clearly defined and largely taken care of consequently the aspirant to Sufi initiation could be more certain than he was seeking God Alone In modern semi Muslim societies however things are not so clear And as for those Sufi tariqas that have emigrated to the West and the individuals who seek admittance to them the situation is even more ambiguous The traditional supports for a collective worldview that places God first and sees His hand in everything are no longer readily available and no one whose worldview is basically secular can follow the Sufi path as the great Sufis of the past once did In the secular West especially Sufi tariqas lack the exoteric religious culture in relation to which they could be truly esoteric without the Zahir one might say there can be no Batin Therefore This book is not so much a text on Sufism itself as an attempt woefully inadequate to indicate certain elements of the original context that allowed Sufism to be what it is
