

THE JOURNALISTS' PRAYER

Almighty God,
strengthen and direct, we pray,
the will of all whose work it is to write
what many read,
and to speak where many listen.

May we be bold in confronting evil and injustice,
and compassionate in our understanding
of human weakness,
rejecting alike the half-truth that deceives,
and the slanted word that corrupts.

May the power that is ours, for good or ill,
always be used with honesty and courage,
with respect and integrity;
so that when all here has been written,
said, and done,
we may, unashamed, meet Thee face to face,
through Jesus Christ our Lord. Amen.

Haskell, 2009 Do journalists report more favourably on people that they like than on those they don t Canada s evangelicals think so For years they ve accused the country s news personnel of being prejudiced against them both personally and in their coverage However up to now the evangelicals charge of media bias has never been empirically examined This book puts that charge to the test An in depth survey of national news personnel accompanied by an extensive multi year examination of news coverage reveals how Canada s journalists feel about evangelicals how they report on evangelicals and how and when their feelings influence their reporting In the end this book concludes when the beliefs and actions of Canadian evangelicals directly clash with the heart felt convictions of Canadian national journalists the journalists are willing to abandon their professional objectivity and slant their stories against their ideological opponents In addition this book uses the media s treatment of evangelicals as a backdrop for the discussion of larger issues How the media construct the news how and why the media cover religion as they do whether journalistic objectivity exists at all and the affect media messages have on audiences is explored Also advice on how religious groups can overcome media bias is offered As the first book to apply the tools of quantitative research to the topic of religion and the news in Canada this book is groundbreaking However written with the lay reader in mind the theoretical underpinnings of the work and methodologies used are presented in accessible easy to understand terms This book will be of interest to all member of the evangelical community clergy and faith leaders and scholars of religion or mass communication This is response rather than reaction Intelligent balanced incisive and
