The Joy Of Negative Thinking:

The Joy of Negative Thinking Donald G. Smith, 1994-10-01 Learning to say NO **Negative Thinking Can Ruin Our Lives** Baldev Bhatia, 2015-11-27 ABOUT THE BOOK INTRODUCTION Negative Thinking Can Ruin Our Lives Let us Think Positive and Be Positive The feeling of negative thinking or sadness is within us It is said that negative thinking is purely our own matter Though it has got something to do with our external circumstances But there are certainly some positive factors within us that keep us happy and there is something negative within us also which keep us unhappy Happy living through positive and good thoughts is nothing more than that of living a normal life free from undue pressures problems and tensions If we want to live a good and happy life then we need to get rid of the negativity within us which makes us unhappy Negative approach always complicates the problems and increases unhappiness Most of us do the fatal mistake of looking outwards for happiness rather than looking inwards Be positive be strong be bold and be courageous you are sure to find the feeling of happiness within you Even if we are having a bad day think of some good things that may come our way either later that day tomorrow next week or next moment When everything seems to be beyond our control it is almost too easy for us to slip into the grasp of negativity and unhappiness To avoid sadness we must strive to abolish this sort of thinking through the power of thinking positively and generate the feeling of happiness within us The art of sweet living is not a complicated kind of art difficult to learn rather a simple art of happy living feeling well eating well and thinking well What we need to do is just to tune up our mind to enjoy every moment of life and let the sweet happiness follow us This is something that needs to be looked into thoroughly We need to focus on the positive aspects of lives rather than on the negative setbacks and enjoy every moment of life happily and merrily Enjoy your life with cheerful talks Be happy and cheerful We must remember that happy living is the reward of sweet and positive thinking We ought to remember only the positive thinking can bring happiness in our lives If we cannot think positively you cannot live happily Be our own teacher or adviser we ought to look everything with a positive angle Let us find something good even in most critical moments of our life and let us make positive thinking the basis of our happy living It is a matter of thought that fools worry about the circumstances on which they have no control The wise live on positive good and happy thoughts A sound and positive happiness is all around It is not far away from us If we do not want to live happy it is up to us It is our own choice We must not blame others nor should we blame our fate or external circumstances Another thing is that feeling confident affects the way we perceive our situations and how we decide to manage them Think that by being more optimistic we alter our approaches to situations and take on them in a healthier manner we think of alternatives and act according to better outcomes All our efforts lead us to good and happy living If we think we are positive and happy it will be positive It does not say to stick our heads in the soil rather it says to think positive Interestingly it does not say feel positive it says think positive and that is the real meaning to remain happy Positive thinking good and happy thoughts make us to live happily Happiness does not come alone it adds our minds body and soul to remain

in constant touch with each other We have to remove negative thoughts and create an atmosphere to be happy in our lives There are many fear factors that are reasoning us to be unhappy and the main reason being that our heart and our feelings which are more susceptible to fear and worry than the mind We do the worrying in our minds but it is our emotions that make us more worried not our brains
