Research Paper ,1949 **Second Partial Report on the Artificial Production of Precipitation** Richard Daniel Coons,Earl Leroy Jones,Ross Gunn,United States. Weather Bureau,1949 The second phase of the Cloud Physics Project was carried on in the vicinity of Wilmington Ohio during the spring and summer of 1948 The organization facilities and general mode of attack were the same as those used in the first phase of the project In this second phase of the study the basic objective was to determine in definite quantitative terms the practical limits and economic importance of cloud modification processes in producing precipitation from cumuliform clouds **Possibility of Long Range Precipitation Forecasting for the Hawaiian Islands** Samuel B. Solot,1948 In order to establish a meteorological forecasting system it is necessary to find a direct relationship between measurable physical states of the atmosphere and the end product the weather element to be forecast The long range forecaster is quite limited in his choice of physical parameters In fact only the very large scale dynamics of the atmosphere which can be expressed in terms of mean pressure patterns are amenable to long range analysis Thus the problem reduces to finding a link between mean planetary pressure patterns and precipitation in the Hawaiian Islands **The Mentor** ,1924 Research Paper - Weather Bureau United States.
