Onder Bakircioglu,2014-10-30 The question of how Islamic law regulates the notions of just recourse to and just conduct in war has long been the topic of heated controversy and is often subject to oversimplification in scholarship and journalism This book traces the rationale for aggression within the Islamic tradition and assesses the meaning and evolution of the contentious concept of jihad The book reveals that there has never been a unified position on what Islamic warfare tangibly entails due to the complexity of relevant sources and discordant historical dynamics that have shaped the contours of jihad Onder Bakircioglu advocates a dynamic reading of Islamic law and military tradition one which prioritises the demands of contemporary international relations and considers the meaning and application of jihad as contingent on the socio political forces of each historical epoch This book will be of great interest to scholars and students of international law Islamic law war and security studies and the law of armed conflict

Constructing Religious Martyrdom John Soboslai, 2024-06-27

Martyrdom is a phenomenon common to many of the world's religious traditions. But why? In this study, John Soboslai offers insights into the practices of self-sacrifice within specific sociopolitical contexts. Providing a new understanding of martyrdom through the lens of political theology, he analyzes discourses and performances in four religious traditions during social and political crises: beginning with second-century Christianity in Asia Minor where the term martyr first took its meaning; He also analyzes Shi'a Islam in the 1980s when suicide bombing first appeared as a strategy in West Asia; global Sikhism during World War I where martyrs stood for and against the British Raj; and twenty-first-century Tibetan Buddhism where self-immolators used their bodies in opposition to the programs of the People's Republic of China. Presenting a new theory of martyrdom linked to constructions of sovereign authority, Soboslai reveals common features of self-sacrifice and demonstrates how bodily performances buttress conceptions of authority.

Averting An Iranian Geopolitical Crisis H. Ram Hormozi, 2016-04-19

Caught between the Ottoman Empire to the west, the Russian sphere of influence in the north, and the British colonial territories in India and the Middle East, Iran at the end of the nineteenth century was a hotly contested strategic battleground. The ruling Qajar Dynasty was led by a young and inexperienced king, and the British were busy extending their reach through unbalanced treaties and resource concessions. Meanwhile, powerful tribal leaders like Sheikh Khaz'al sought to retain their traditional positions and block efforts to unite the country under a strong central government. With the discovery of oil and Britain's need to fuel her war machine in World War I, increased attention on Iran demanded a modernization of her policies and government. Reza Khan, an otherwise unknown soldier, united the armed forces and swept to power, bringing with him the unity and structure needed to take Iran into the emerging modern world. After disposing of the former rulers, he became the new shah and fought to rebuild his country after centuries of abuse and manipulation by foreign powers. What was at stake was the autonomy of Iran's lifeline, Iran's Golden State, Khuzestan province, a province with abundant rich oil and gas reservoirs, natural resources with a strategic importance to the warm waters of the Persian Gulf. The full sovereignty by others could have exponentially undermined Iran's position and role on the world stage, both politically and economically, and even more so in the turbulent Middle East of today. Events of the time period of this book are very pertinent to the current geopolitical conversation, struggles, and developments in the region. This is the story of the dynamic power play for dominance, robust diplomacy, and political rivalries between colonial powers, powerful tribes, and government actors in the Iranian southwest theater. The emergence of a powerful regime in Iran and the superpowers' radical shifts in foreign policy and in the regional engagements in the post-World War I significantly contributed to averting this geopolitical crisis of a historic proportion. It is an extensively researched and definitive history of Iran at the turn of the

twentieth century that is required reading for anyone seeking to understand the history of colonialism oil exploration and the ongoing political tensions of the Middle East **Yusuf Al-Qaradawi, Islam and Modernity** Samuel Helfont,2009 This work analyzes how the conditions of modernity have shaped the contemporary views of the prominent Islamic thinker Yusuf al Qaradawi At the outset it lays the foundation for a discussion of modernity by reviewing the ideas of prominent philosophers such as Kant Hegel as well as of contemporary social scientists such as Habermas Based on their understanding of modernity this work shows how increased education mass communication and migration have changed the way Muslims perceive their religion It also shows how al Qaradawi s thinking reflects this Al Qaradawi is put into historical perspective through a review of modernity in the Islamic world over the last 200 years This is followed by an examination of his views on a number of pertinent issues including science massmedia jihad international relations democracy and feminism The findings are based on hundreds of fatwas sermons and interviews in the Arab media and on relevant secondary sources both in English and Arabic As of yet no in depth work of this length has been published on al Qaradawi in English
