Forces of Nature David Fedman, Eleana J. Kim, Albert L. Park, 2023-05-15 Bringing together a multidisciplinary conversation about the entanglement of nature and society in the Korean peninsula Forces of Nature aims to define and develop the field of the Korean environmental humanities At its core the volume works to foreground non human agents that have long been marginalized in Korean studies placing flora fauna mineral deposits and climatic conditions that have hitherto been confined to footnotes front and center In the process the authors blaze new trails through Korea s social and physical landscapes What emerges is a deeper appreciation of the environmental conflicts that have animated life in Korea The authors show how natural processes have continually shaped the course of events on the peninsula how floods droughts famines fires and pests have inexorably impinged on human affairs and how different forces have been mobilized by the state to variously control extract modernize and showcase the Korean landscape Forces of Nature suggestively reveals Korea s physical landscape to be not so much a passive context to Korea s history but an active agent in its transformation and reinvention across centuries With support from the Henry Luce Foundation our goal is to produce all titles in this series both in Open Access for reasons of global accessibility and equity as well as in print editions

*The Boys' Academic Pandemic: Can't Read, Can't Learn!* Armand A. Fusco Ed.D., 2025-01-21 Boys Academic Pandemic Abstract If schools didn t exist there would be no boy crisis or Academic Pandemic The single root cause is the lack of literacy reading skills due to instructional malpractice involving when and how reading instruction is done It s a combination of practices because schools are for girls

dominated by females and misandry prejudice against boys conscious and unconscious Unless the thorny issues involved are resolved aggressively and effectively it will continue to cause pervasive consequences In addition overwhelming research proves that black boys are in a free fall without schools implementing known effective remedies School officials have used the false narrative that socio economic factors poverty discrimination dysfunctional families poor housing etc are causes to absolve them from responsibility to remedy the problems The proof is the Mississippi Miracle that has made more progress in just ten years than any other state The remedies and treatments must be matched with root not perceived causes The deficits are shockingly manifested in the 2022 National Assessment of Education Progress results with 67% 30 million below proficiency in reading and 75% 35 million below in math When frustrated with learning stress and anger result that cause dire consequences discipline chaos and the school to prison pipeline dropouts becoming evident because that s where students are compared with one another over 12 years Dysfunctional homes single parent homes and overprotective parents also play a crucial role in creating Bubble Wrap Children BWC who are armed with layers of protective bubble wrap to shield them from any negative flak but school and life events find ways to pierce the bubble The root cause is too obvious to consider as the book will reveal instead it must be viewed as more complex when it s not It closes with an open letter to incarcerated youth
