**States and Urban-based Revolutions** Farideh Farhi,1990      **Modern Revolution** Daniel Brook,2005-09-15 Using a comparative historical methodology this book analyzes and contrasts the 1989 Velvet Revolution in Czechoslovakia with China s Tiananmen Square rebellion from socio cultural and political economic perspectives      **States and Social Revolutions** Theda Skocpol,2015-09-29 State structures international forces and class relations Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions

Theorizing Revolutions John Foran,2003-09-02 In Theorizing Revolutions some of the most exciting thinkers in the study of revolutions today look critically at the many theoretical frameworks through which revolutions can be understood and apply them to specific revolutionary cases The theoretical approaches considered in this way include state centred perspectives structural theory world system analysis elite models demographic theories and feminism and the revolutions covered range in time from the French Revolution to Eastern Europe in 1989 and in place from Russia to Vietnam and Nicaragua      **A Century of Revolution** John Foran,1994 This volume offers a much needed look into the historical social and political developments leading up to the Iranian revolution Bringing together a group of scholars historians and social scientists most of them Iranian in origin the book documents an extraordinary revolutionary heritage that predates this century
