**Static Dreams**, 1996      **Environment and Behavior II: Abstracts** Lenelis Kruse, Volker Schwarz, 1988

**Environment and Behavior, Part II: Abstracts** Lenelis Kruse, 1988      *Green and Ecological Technologies for Urban Planning: Creating Smart Cities* Ercoskun, Ozge Yalciner, 2011-12-31 Ecological and technological eco tech planning provides a possible response to the essential issues of sustainability and rehabilitation in rapidly growing urban spaces Green and Ecological Technologies for Urban Planning Creating Smart Cities addresses the ecological technological and social challenges faced in the smart urban planning and design of settlements when using eco technologies from sustainable land use to transportation and from green areas to municipal applications with a focus on resilience Containing research from leading international experts this book provides comprehensive coverage and definitions of the most important issues concepts trends and technologies within the planning field      **Understanding Ordinary Landscapes** Paul Groth, Paul Erling Groth, Todd W. Bressi, 1997-01-01 How does knowledge of everyday environments foster deeper understanding of both past and present cultural life Traditional studies in this field have been of rural life Here contributors explore aspects of the emergent field of urban cultural landscape studies with the challenging issues of class race ethnicity and subculture to demonstrate the value of investigating the many meanings of ordinary settings 67 illustrations      **The Cambridge Handbook of Commons Research Innovations** Sheila R. Foster, Chrystie F. Swiney, 2021-11-11 The commons theory first articulated by Elinor Ostrom is increasingly used as a framework to understand and rethink the management and governance of many kinds of shared resources These resources can include natural and digital properties cultural goods knowledge and intellectual property and housing and urban infrastructure among many others In a world of increasing scarcity and demand from individuals states and markets it is imperative to understand how best to induce cooperation among users of these resources in ways that advance sustainability affordability equity and justice This volume reflects this multifaceted and multidisciplinary field from a variety of perspectives offering new applications and extensions of the commons theory which is as diverse as the scholars who study it and is still developing in exciting ways      [Design Outlaws on the Ecological Frontier](#) Chris Zelov, 2000 In *Design Outlaws* Christopher Zelov Phil Cousineau and Brian Danitz have gathered together the interviews of over twenty of the leading designers and architects from their award winning documentary film *Ecological Design Inventing the Future* This far reaching collection is lavishly illustrated and will inspire both the professional and the general reader alike      *EDRA. Environmental Design Research Association, 1985      Sustaining Architecture in the Anti-Machine Age* Ian Abley, James Heartfield, 2001 The issue of sustainability is one of the guiding principles of contemporary architecture This book brings together contributions from architects journalists academics and consultants to discuss sustainability from a wide range of viewpoints with a focus on commercial development      [EDRA; Proceedings of the Annual Environmental Design Research Association Conference](#) Environmental Design Research Association, 1985

**Transportable Environments** Robert Kronenburg, 2013-04-03 Transportable Environments explores aspects of the historical and theoretical basis for portable architecture and provides an insight into the wide range of functions that it is used for today the varied forms that it takes and the concerns and ideas for its future development Written by a team of international commentators this volume provides a state of the art survey of this specialist area and will be of interest to a wide range of professionals across the construction and design industries

**TAOHO Design** TAOHO Design, Tao Ho, 1998 Collected in this book are a few of the most significant works by Tao HO planned and executed in various places in the last twenty years schools office buildings hotels and urban projects

**Architectural Publications Index**, 2000 Edra 16 Environmental Design Research Association. Annual Conference, 1985

*Revising Green Infrastructure* Daniel Czechowski, Thomas Hauck, Georg Hausladen, 2018-10-08 Consider this How do we handle the convergence of landscape architecture ecological planning and civil engineering What are convenient terms and metaphors to communicate the interplay between design and ecology What are suitable scientific theories and technological means What innovations arise from multidisciplinary and cross scalar approaches What are appropriate aesthetic statements and spatial concepts What instruments and tools should be applied

*Revising Green Infrastructure* Concepts Between Nature and Design examines these questions and presents innovative approaches in designing green landscape or nature as infrastructure from different perspectives and attitudes instead of adding another definition or category of green infrastructure The editors bring together the work of selected ecologists engineers and landscape architects who discuss a variety of theoretical aspects research projects teaching methods and best practice examples in green infrastructure The approaches range from retrofitting existing infrastructures through landscape based integrations of new infrastructures and envisioning prospective landscapes as hybrids machines or cultural extensions The book explores a scientific functional approach in landscape architecture It begins with an overview of green functionalism and includes examples of how new design logics are deduced from ecology in order to meet economic and environmental requirements and open new aesthetic relationships toward nature The contributors share a decidedly cultural perspective on nature as landscape Their ecological view emphasizes the individual nature of specific local situations Building on this foundation the subsequent chapters present political ideas and programs defining social relations toward nature and their integration in different planning systems as well as their impact on nature and society They explore different ways of participation and cooperation within cities regions and nations They then describe projects implemented in local contexts to solve concrete problems or remediate malfunctions These projects illustrate the full scope presented and discussed throughout the book the use of scientific knowledge strategic thinking communication with municipal authorities and local stakeholders design implementation on site and documentation and control of feedback and outcome with adequate indicators and metrics Although diverse and sometimes controversial the discussion of how nature is regarded in contrast to society how human natural systems could be organized and how nature could be changed optimized

or designed raises the question of whether there is a new paradigm for the design of social relations to nature The multidisciplinary review in this book brings together discussions previously held only within the respective disciplines and demonstrates how they can be used to develop new methods and remediation strategies **Landscape Architecture** ,1994

**Paradise Lost** Kimmo Lapintie,1996 **Fool's Gold?** L. Sargisson,2012-07-17 What s wrong with the world today and how might it become better or worse These are the questions pursued in this book which explores the hopes and fears dreams and nightmares of the 21st century Through architecture fiction theory film and experiments with everyday life Sargisson explores contemporary hopes and fears about the future *Future City* Jane Alison,Barbican Art Gallery,2007 For millennia architects and builders have attempted to rationalize cities into well functioning and liveable places While many aspects of a city evolve naturally other facets result from human interventions and radical imagination Future City celebrates the visionary urban schemes that have preoccupied architects trying to create a better world from the 1950s to the present This ambitious publication assembles several generations of utopian architecture in a single volume With the city serving as the context and catalyst for the works the book provides an indispensable resource for contemporary architectural and urban development and innovation in the third millennium Dr. Dobb's Journal of Software Tools for the Professional Programmer ,1987
