Statistical Methods In Discrimination Litigation:

Statistical Methods in Discrimination Litigation D.H. Kaye, Mickel Aickin, 2014-07-22 This book sketches some of the legal doctrines that underlie discrimination litigation It describes and probes frequently seen statistical methods The book also describes the more or less standard methods being brought into United States Supreme Court [The Statistics of Discrimination](#) Ramona L. Paetzold, Steven L. Willborn, 1994 [Statistical Analysis of Employment Data in Discrimination Lawsuits and Eeo Audits](#) Dwight D. Steward, 2010-01 Statistical analysis can play a pivotal role in both avoiding and settling employment disputes Employers and litigants in employment lawsuits routinely use statistics to investigate the legitimacy of employment decisions Statistical Analysis of Employment Data provides managers and courts with empirical evidence that goes beyond anecdotes and stories This textbook presents the methodologies that are used in statistical employment data analyses While the focus is on statistics it is not a cookbook of magic mathematical formulas Instead a non mathematical approach is used to develop the conceptual framework underlying employment data analyses [Litigation Services Handbook](#) Roman L. Weil, Daniel G. Lentz, David P. Hoffman, 2012-07-10 Here s all the information you need to provide your clients with superior litigation support services Get up to speed quickly with the aid of top experts on trial preparation and testimony presentation deposition direct examination and cross examination Authoritative and highly practical this is THE essential guide for any financial expert wanting to prosper in this lucrative new area the lawyers who hire them and litigants who benefit from their efforts This work of amazing breadth and depth covers the central issues that arise in financial expert testimony It is an essential reference for counsel and practitioners in the field Joseph A Grundfest The William A Franke Professor of Law and Business Stanford Law School former commissioner United States Securities and Exchange Commission [Statistical Evidence in Litigation](#) David W. Barnes, 1986 **Clearinghouse Review** ,1986 **Computer Applications for Handling Legal Evidence, Police Investigation and Case Argumentation** Ephraim Nissan, 2012-06-15 This book provides an overview of computer techniques and tools especially from artificial intelligence AI for handling legal evidence police intelligence crime analysis or detection and forensic testing with a sustained discussion of methods for the modelling of reasoning and forming an opinion about the evidence methods for the modelling of argumentation and computational approaches to dealing with legal or any narratives By the 2000s the modelling of reasoning on legal evidence has emerged as a significant area within the well established field of AI Law An overview such as this one has never been attempted before It offers a panoramic view of topics techniques and tools It is more than a survey as topic after topic the reader can get a closer view of approaches and techniques One aim is to introduce practitioners of AI to the modelling legal evidence Another aim is to introduce legal professionals as well as the more technically oriented among law enforcement professionals or researchers in police science to information technology resources from which their own respective field stands to benefit Computer scientists must not blunder into design choices resulting in tools objectionable for legal

professionals so it is important to be aware of ongoing controversies A survey is provided of argumentation tools or methods for reasoning about the evidence Another class of tools considered here is intended to assist in organisational aspects of managing of the evidence Moreover tools appropriate for crime detection intelligence and investigation include tools based on link analysis and data mining Concepts and techniques are introduced along with case studies So are areas in the forensic sciences Special chapters are devoted to VIRTOPSY a procedure for legal medicine and FLINTS a tool for the police This is both an introductory book possibly a textbook and a reference for specialists from various quarters

Statistics in the 21st Century Adrian E. Raftery, Martin A. Tanner, Martin T. Wells, 2001-07-09 This volume discusses an important area of statistics and highlights the most important statistical advances It is divided into four sections statistics in the life and medical sciences business and social science the physical sciences and engineering and theory and methods of statistics

Approaches for Dealing with Small Sample Sizes in Employment Discrimination Litigation Michael J. Piette, Paul F. White, 2015 The focus of all statistical analyses of alleged employment discrimination is to compare the treatment of similarly situated individuals Economists and statisticians as experts offering quantitative support for or against allegations of employment discrimination are now commonplace in the courtroom Although there is a rich and growing literature dealing with the tools and techniques used by these experts in large class action litigation relatively little of this literature addresses the problems associated with the approaches that may be used when the sample size being analyzed is small The purpose of this paper is to outline the problems of developing statistical analysis involving small sample size problems and to present techniques for dealing with this problem The paper provides several hypothetical examples of employment discrimination cases involving small sample sizes illustrates alternative statistical techniques that can be used and discusses the important consideration of the differences between statistical significance and practical significance

Improved Statistical Methods for the Calculation of Damages in Discrimination Lawsuits Scott Susin,2017 This paper develops a new method to calculate individual specific damage payments in discrimination lawsuits using empirical Bayes techniques and a simple random coefficients model The method yields payments that can be mathematically proven to be more accurate than existing statistically based approaches as measured by the mean squared error This method also provides a natural justification for zero payments to members of the non injured class and substantially reduces the bias caused by the legal restriction on negative payments We empirically demonstrate our method in the context of mortgage pricing decisions using detailed loan level data from a large subprime lender **Modern Scientific Evidence** David Laurence Faigman,2002
