Williams, 2020-01-30 Originally published in 1987 this is a thorough and lucid introduction and commentary to the whole of Goethe s Faust It gives the student of German and European literature valuable insights into the most important work of Germany s foremost poet German quotations are translated or paraphrased in English and a detailed knowledge of German literature is not assumed The book traces Goethe s work on the play over 60 years of his creative career and surveys its critical reception over the 200 years since its first appearance Part One is analysed as a mimetic tragedy Part Two as an historical and cultural profile of Goethe s own times The commentary guides the reader carefully through its subtleties and multi layered references and provides a broad and coherent structure for the overall understanding of the work It suggests

provocative interpretations of some figures and episodes in Part Two and places renewed emphasis on parts of the work that often receive relatively little attention An appendix surveys the metres and verse forms of the play **The Melancholy Android** Eric G. Wilson,2012-02-01 The Melancholy Android is a psychological study of the impulses behind the creation of androids Exploring three imaginative figures the mummy the golem and the automaton and their appearances in myth religion literature and film Eric G Wilson tracks the development of android building and examines the lure of artificial doubles untroubled by awareness of self Drawing from the works of philosophers Ficino Kleist Freud and Jung writers Goethe Coleridge Shelley and Poe and movies such as Metropolis The Mummy and Blade Runner this book not only offers a range of sites from which to analyze the relationship between mind and machine but also considers a pressing paradoxical dilemma loving machines we want to hate *Growth, Modernity and the Nations of Wealth* Eric Humphrey and Dwight Semler,2026-01-02 Eric Humphrey and Dwight Semler present a new theory explaining the mysterious historical emergence of modern economic growth and its even more baffling offspring modernity Noticeable changes in material life began less than three centuries ago but previous theoretical accounts have failed to explain their arrival Thinkers assumed modern wealth and morality were the universal standard driving human history They assumed modern rights and riches were natural and normal In this way they thought of such things as ends rooted in human nature rather than deriving them as consequences from a historical nonmodern baseline Misdirected they set out to liberate the imprisoned modern homunculus who caused modernity through moral education and economic institutions Modernity became an awareness problem Yet this high maintenance modern self and its ever growing needs are a consequence of modern processes rather than their cause Consequently theorists of the modern world produced comically omnipotent notions of human agency Marxists and developmental economists saw modernity as a moral or material self realization project requiring only a liberator or engineer But when their God of Genesis model failed the facts they overreacted and defaulted to its alter ego humans were passive leaves in the wind of history Modernity thus oscillates between a chosen destiny and a given fate With modernity represented as a historical fate all pretense of a grand theoretical view vanishes in thick description of one damn thing after another and the historian s rote chronology replaces any theoretical causality as a specific description of a particular falling rock replaces a general theory of gravity Understanding the modern world and how it came to be argue the authors is less a matter of facts than of the foundational assumptions used to link facts together into robust and coherent theories We must un assume our modern selves and give poverty and illiberality their just historical due With better and more scientifically consistent assumptions they argue the old facts of history can be seen in a new way Then the solution to understanding the most puzzling and abnormal of human events the modern world itself turns out to be hiding in plain sight **Plus and Minus** Frank Harper,1929 **Rain Taxi Review of Books** ,1997 **The Ideal World of Dictatorship** Stefan Wolle,2019 **Anthropos and Son of Man** Carl Hermann Kraeling,1927 **Faust ; Egmont ; The natural daughter ; The sorrows**
