## **The Channel Islands An Archaeological Guide:**

**The Channel Islands** David E. Johnston,1981      **The Channel Islands ,      Handbook for British and Irish Archaeology** Cherry Lavell,2019-08-05 Where can I find an amateur archaeological society to join How can I find out more about a particular aspect of archaeology Which are the most useful available texts in this field Which Universities run archaeology courses If you have ever asked or been asked any of the above questions then this is the book for you a one stop truly comprehensive dedicated and reliable sourcebook for archaeology In one volume the Handbook offers an astonishingly wide range of up to date information including Lists of organisations national societies and special interest groups within archaeology and contributory disciplines A catalogue of finding aids such as printed bibliographies dictionaries map lists and record office directories A guide to grant sources Lists of archaeological touring guides Bibliography of books offering starting points for almost any topic encountered in archaeology With a full subject and author index to help the reader navigate the information this Handbook is the most comprehensive guide to sources and resources available in British and Irish Archaeology      **The Archaeology and Early History of the Channel Islands** Heather Sebire,2005 Jersey Guernsey and Alderney lie off the western coast of the Cotentin peninsula of Normandy in France and some 120km from mainland Britain Strategically placed in the western channel yet subject to very large tidal ranges and dangerous currents the islands have been occupied for over 250 000 years As a result they are rich in archaeological and historical sites and monuments Many excavations have taken place over the last 20 years the results of which have contributed to new evidence particularly in relation to the Mesolithic Roman and medieval periods This book describes the archaeological record of the Channel Islands from their early prehistory to the medieval period Heather Sebire has lived in Guernsey since 1978 After graduating from London University she worked in archaeology in London and Wessex before moving to Guernsey She was secretary of La Societe Guernesiasie Archaeology Group for many years and participated in much of the rescue archaeology that took place on the island Since 1995 she has held the post of Archaeology Officer at Guernsey Museum and has written and broadcast about the archaeology of Guernsey and the other islands since that time      [Decoding Neolithic Atlantic and Mediterranean Island Ritual](#) George Nash,Andrew Townsend,2016-03-31 What constitutes an island and the archaeology contained within Is it the physicality of its boundary between shoreline and sea Does this physical barrier extend further into a watery zone Archaeologically can islands be defined by cultural heritage and influence Clearly and based on these few probing questions islands are more than just lumps of rock and earth sitting in the middle of a sea or ocean An island is a space which when described in terms of topography landscape form and resources becomes a place A place can sometimes be delineated with barriers and boundaries it may also have a perimeter and can be distinguished from the space that surrounds it The 16 papers presented here explore the physicality and levels of insularity of individual islands and island groups during prehistory through a series of case studies on Neolithic island archaeology in the Atlantic and Mediterranean

regions For the eastern Atlantic the Atlantic Archipelago papers discuss the sacred geographies and material culture of Neolithic Gotland Orkney and Anglesey and the architecture of and ritual behavior associated with megalithic monuments in the Channel Islands and the Scilly Isles The Mediterranean region is represented by a different type of Neolithic both in terms of architecture and material culture Papers discuss theoretical constructs and ritual deposition cave sites ritualized and religious aspects of Neolithic death and burial metaphysical journeys associated with the underworld in Late Neolithic Malta and the possible role of its Temple Period art in ritual activities and palaeoenvironmental evidence from the Neolithic monuments of Corsica The cases examined illustrate the diversity of the evidence available that affords a better understanding of the European Mediterranean Neolithic island society not least the effects of interaction contact and or geographical insularity isolation all factors that are considered to have consequences for the establishment and modification of cultures in island settings

*From Carnac to Callanish* Aubrey Burl, Dr Aubrey Burl, 1993-01-01 This book discusses the lines of standing stones that until now have been the neglected wonders of prehistoric Europe rows that were foci of rituals in Britain Ireland and Brittany for over two thousand years Places such as Carnac in Brittany and Callanish in the Hebrides are visited by many visitors each year but before now there has been no book that seriously explains the history significance and background to these impressive sites Aubrey Burl shows that the settings vary from pairs of isolated stones in the far south west of Ireland to networks of long lines in Scotland Dartmoor and Brittany and describes the types in a sequence of architectural chapters that stress the increasing social and commercial connections between regions hundred of miles apart He uses information from a wide variety of sources excavation reports megalithic art astronomical analyses and legends to provide explanations of why the rows were erected when and what they may have been used for

Neolithic Communities of the Channel Islands Mark Patton, 1995 This is the first full length study of the prehistoric history of the Channel Islands since 1937 Using modern techniques of anthropological archaeology and theory Patton records in detail the evidence for the Neolithic period 5000 2000 BC and develops a model for socio cultural change in the islands in particular he examines the effects of insularity on their historical and cultural development In six appendices he presents details of the islands flint assemblages stone axes and pottery and an inventory of sites

The Archaeological Journal, 1904 *Pagan Channel Islands* S. V. Peddle, 2007 Around three to five thousand years ago an ancient people began building stone sites and monuments on the Channel Islands creating a landscape as rich in mythology as any archaeological site in Greece or Egypt This work examines this landscape
