

CASE STUDY TEMPLATE

What is a case study?

A case study is an individual's story. It tells the reader how Save the Children's work has made a difference in the life of a child or his/her family.

1. Background: Please provide basic information about the interviewee(s).

Name(s), gender, age:	Mama Amina a Female aged 25 years
Location – village/town, district/province and country:	Mama Amina is a resident of Arbanqeramso location of wajir east constituency in Wajir County Northern Kenya.
Keywords – themes:	BEHAVIOUR CHANGE COMMUNICATION

2. Summary: Please describe the interviewee's day-to-day life and environment.

Amina hails from a very insolvent family which has put them in an abject situation and the kind of life they are living can't be compared to that of their neighbours since they never owned a source of wealth. She came to settle in Arbaqheramso in 2011 during the prolonged Horn of Africa drought that swept away their livestock. Her husband is a small scale herder and most of the time is absent from home looking after other people's shoats. They live in a small makeshift home.

3. The story: Interviewee's story in his or her own words. Please use exact words with direct quotes.

Amina who is a mother of two boys and one girl, is among the beneficiaries of the County Department of Health (CDH) and Save the Children Health and Nutrition integrated interventions as well as a member of a Mother to Mother Support Group (MTMSG) who has attended several health and nutrition promotion sessions and short trainings such as Participatory Hygiene and sanitation transformation (PHAST), Community Led Total sanitation (CLTS) and others that stimulated her mind to realize the importance of hygiene and sanitation as a preventive measure. She said, "I have been part of the communities triggered by Sub-County public health officers together with Save the Children staff and I feel that there is need to change." She said, "Our source of water is a shallow well and when it rains it usually floods and fills with water to the brim. However, we have been consuming the water without boiling thus our children and us becomes sick due to unhygienic conditions. My gratitude goes to Save the Children and the Health Department who have used their time and resources to empower us at the grass root level." Immediately after CLTS triggering in October 2014, Amina started to construct a pit latrine in her compound as she vowed never to go back to open defaecation. On the completion of the latrine Amina welcomed her neighbours to share with her with no string attached to it but exhort them to construct one to elude slavery and advocate for Open Defaecation Free environment (ODF).

"Hooran kathitha ayaan isku ceelin jiray muusqull laan awgeed ,gumeerka ayaana eehanunu jiray waxana kacabson jiray cuuthur kathitha xageed inn uu igudacaa lakkiin xada waan reystay maarkan musqushi distaay" Amina retorts. ("Used to retain urine in my bladder for long hours due to lack of toilet and I had put myself in the risk of getting Urinary Tract Infections(UTIs) but now I am relieved since I own a personal latrine" she also said that 'Niin cessantisa ayaa ceelgeysa" It is only your belongings that can quench your thirst")

Stake, 2013-04-29

Examining situational complexity is a vital part of social and behavioral science research. This engaging text provides an effective process for studying multiple cases such as sets of teachers staff development sessions or clinics operating in different locations within one complex program. The process also can be used to investigate broadly occurring phenomena without programmatic links such as leadership or sibling rivalry. Readers learn to design, analyze, and report studies that balance common issues across the group of cases with the unique features and context of each case. Three actual case reports from a transnational early childhood program illustrate the author's approach and helpful, reproducible worksheets facilitate multicase recording and analysis.

A Practical Introduction to Real-World Research Loreen Wolfer, 2021-01-15

This practical text combines social research methods with coverage of statistical analysis to help students develop the applied research skills needed for future careers in public and private organizations while also delivering a solid foundation for those going on to graduate school. Throughout the book, the author offers a real-world example and then breaks it down into a decision tree which helps lead students to a possible statistical decision rather than starting with the statistic. This text gives students a toolbox of the most common and in-demand skills and demonstrates how those skills can be used to make the best research decisions. The book takes students through the entire real-world research process from the formation of a research topic to measurement and sampling to methods for gathering information and making sense of the data and finally presenting to a non-academic audience in a way that gets the job done. Resources for instructors and students are available on an accompanying website for the book.

Child Rights and Displacement in East Africa Cherie C. Enns, Willibard J. Kombe, 2022-09-01

Focusing on the intersection of spatial justice, child rights, and planning policy, this book investigates the challenges of resettlement in East Africa where half of those displaced are children. The challenges created by displacement and resettlement are often considered from an adult-centric perspective by planners and humanitarian and development experts. The spatial injustice of displacement and resettlement, the agency of children, and the application of tools such as the Child Participatory Vulnerability Index (CPVI) is siloed, commonly overlooked, or discounted. This book uses a CPVI and rights-based assessment of land use policies to investigate resettlement due to conflict and settlement in northern Uganda, floods due to climate change in Dar es Salaam, Tanzania, and urban to rural migration of children due to the AIDS pandemic in Western Kenya. Case studies from over a decade of field research are integrated with examples from applied planning projects and policy development in the East Africa region. This book uses spatial justice theory to show how child-friendly planning approaches can positively promote child rights in the context of resettlement. Providing important insights on how

to enact child friendly planning in informal settlements refugee camps and displacement camps this book will be of interest to planning and development professionals and researchers across the fields of children s rights Development Studies Planning and African Studies **Family and Child Welfare Studies in Pennsylvania 1921-1926** Hugh Penn
