*The European Council and the Council* Uwe Puetter, 2014-09-18 This book offers one of the most comprehensive accounts of European Council and Council decision making by covering two decades of European integration from the late 1990s until the years after the entering into force of the Lisbon Treaty Case studies analyse the European Council the Eurogroup the Economic and Financial Affairs Council the Foreign Affairs Council and the Employment Social Policy Health and Consumer Affairs Council as well as the role of senior coordination committees Puetter provides a genuinely new perspective on the European Council and the Council portraying the two institutions as embodying the new intergovernmentalism in European Union Governance The European Council and the Council shows how post Maastricht integration is based on an integration paradox Member states are eager to foster integration but insist that this is done outside the community method This especially applies to new prominent areas of European Union activity including economic governance common foreign security and defence policy as well as employment and social policy This book explains how the evolution of these new areas triggered institutional change Policy coordination and intergovernmental agreement are identified as the main governance mechanisms with the European Council and the Council at the centre of these processes This book features a novel analytical framework deliberative intergovernmentalism to trace institutional change after the Treaty of Maastricht Joint decision making among member states is understood as non legislative decision making which is geared towards permanent consensus seeking and direct member state involvement at all stages of the policy process

**The conclusions of the European Council and the Council of Ministers** Great Britain: Parliament: House of Commons: European Scrutiny Committee, 2008-02-04 The Conclusions of the European Council are politically binding on the Member States of the European Union and have a major influence on the direction of EC and EU business The process of preparing the Conclusions is secretive with Parliament having no opportunity to scrutinise the Conclusions before the Prime Minister commits the UK to them Whilst the Council of Ministers sometimes has conclusions and sometimes does not there are different Council of Ministers each dealing with a separate policy area the European Scrutiny Committee believes that a clarification of the Conclusions process is needed and the objective of this report is to inquire into the arrangements for the preparation consideration and approval of the Conclusions of the European Council and the Council of Ministers The Committee has set out a number of conclusions and recommendations including that the Government should discuss with other Member States the options of improving the process and removing present inefficiencies and eccentricities of the proceedings of the European Council that the Government should deposit within the scrutiny process in Parliament the draft Conclusions of the European Council that the Government presses the case with other Member States for establishing criteria to determine when Conclusions of the Council of Ministers are required

impact on EU supranational and intergovernmental dynamics Taking account of historical and contemporary developments up to and beyond the Lisbon Treaty it encourages in depth understanding of this key institution **The European Council and the Council** Uwe Puetter,2014 The European Council and the Council are presently perhaps the most important European Union institutions yet little is know about the reasons behind the importance of the two bodies This book provides one of the most comprehensive accounts of the leadership roles of the European Council and the Council in European Politics

**The European Council** Mary Johnston,2019-07-11 This book presents the history of the transformation of the summit into the European Council EC It considers the political organizational and legal preparations for the increased involvement of heads of government in a more influential EC international and regional role **The European Council and European**

**Governance** François Foret,Yann-Sven Rittelmeyer,2013-12-04 In recent years the failure of the constitutional process the difficult ratification and implementation of the Lisbon Treaty as well as the several crises affecting Europe have revitalized the debate on the nature of the European polity and the balance of powers in Brussels This book explains the redistribution of power in the post Lisbon EU with a focus on the European Council Reform of institutions and the creation of new political functions at the top of the European Union have raised fresh questions about leadership and accountability This book argues that the European Union exhibits a political order with hierarchies mechanisms of domination and legitimating narratives As such it can be understood by analysing what happens at its summit Taking the European Council as the nexus of European political governance contributors consider council and rotating presidencies co operation rivalry and opposition The book combines approaches through events processes and political structures issues and the biographical trajectories of actors and explores how the founding compromise of European integration between sovereignty and supranationality is affected by the evolving nature of this new European political model which aims to combine cooperation and integration The European Council and European Governance will be of strong interest to students and scholars of European studies political science political sociology public policy and international relations **The European Council** Council of the European Union.

The Changing Role of the European Council in the Institutional Framework of the European Union Frederic Eggermont, 2012 In this book intended for everyone interested in EU decision making two main research questions will be answered. Firstly what is the relationship between the European Council and the other EU institutions. Secondly what are the various roles of the European Council in the EU decision making process. The results of this research will show that European Council conclusions have been used extensively in this decision making process and this has increased considerably over time. Based on the analysis of European Council conclusions and legal texts a typology is created to provide an orderly picture of the European Council's various roles such as the European Council as a political initiator as an interpreter of the Treaties and as an appeals council.
