IMMERSING LEADERSHIP
IN CYBER CRISIS MANAGEMENT

WHY CHOOSE OUR EXECUTIVE BREACH SIMULATION?

Unified Exposure: Engage stakeholders and decision-makers across the organization in a comprehensive cyber crisis experience.

Crisis Holism: Encounter the entirety of a breach, from technical triggers to leadership decisions and implications.

Operational Realism: Experience the intricate pace and nuances of decision-making during a cyber incident.

Resilience Testing: Evaluate the organization's readiness and responsiveness, identifying gaps in processes and roles.

Strategic Insights: Illuminate the roles of governance, communications, legal, HR, and more during a crisis.

In the realm of cybersecurity, preparedness is the cornerstone of effective defense. Introducing our Executive Breach Simulation – a transformative experience designed to evaluate an organization's collective readiness and response in the face of a simulated adversarial attack. Unlike traditional simulations focused solely on departments or groups, this exercise brings together stakeholders and decision-makers from across the organization. It offers a unique opportunity to delve into the intricacies of a cyber crisis, fostering a holistic understanding of the incident response process.

With a threat landscape where cyber threats can disrupt even the most robust organizations, our Executive Breach Simulation stands as a beacon of proactive defense. This immersive exercise commences with an escalation from the Security Operations Center (SOC) and guides participants through a scenario that unfolds across technical, managerial, and strategic dimensions. As the simulation progresses, business leads are faced with decisions that mirror real-world crisis situations.
