

# GOOD MANNERS

- Always stand and greet when someone visits your home and at the time when they leave. Before entering into somebody's room, make sure to knock on the door as it is also a good manner.
- Always ask "May I" before taking something which belongs to someone else and still share things owned by you with others; this projects how caring you are.
- When someone offers something, one must say "Thank You" to respect his offer.
- When two people are talking, and someone else wants to talk to them, the person should say "Excuse Me," as it's not a good manner to interrupt two persons while they are talking. Don't try and impose your opinion on others, respect other people's views, and listen to those as well.

**The Influence of Values on Consumer Behaviour** Erik Kosteljik,2016-08-05 Substantial progress has been made in the conceptualization of values within psychology The importance of values is also acknowledged in marketing and companies use values to describe the core associations of their brand Yet despite this the values concept has received limited attention in marketing theory The Influence of Values on Consumer Behaviour aims to bridge the gap between the conceptual progress of values in psychology and the current practice in marketing and branding literature It proposes the Value Compass a comprehensive value system that is cross culturally applicable to consumer behaviour and brand choice The values concept is used in psychology to identify the motivations underlying behaviour a concept that marketers have borrowed to define brand values This has led to conceptual confusion Whereas in psychology the values system is perceived

as an integrated structure in marketing values are treated as abstract motivations that give importance to the benefits of consumption Attention in marketing has shifted away from brand values toward brand personality a set of human characteristics associated with a brand Despite its popularity brand personality has limitations in explaining consumer behaviour while the potential merits of a brand values concept have remained largely unexplored The book presents a meaningful alternative to the brand personality concept and promotes the benefits of using the Value Compass for assessing the effects of brand values and personal values on consumer choice As such it will be essential reading for academics and postgraduate students in the fields of marketing consumer psychology branding consumer choice behaviour and business studies
