Collected Works Supplementary Vol A.* C.G. Jung, 1983 *The Zofingia Lectures* C.G. Jung, 2014-12-18 The Zofingia Club was a discussion group to which C G Jung belonged as a medical student in 1897 he became Chairman and gave five lectures These have survived and are published here in a supplementary volume to the Collected Works The lectures are of great interest to anyone concerned with Jung s early ideas as a young medical student from a strongly Swiss Protestant background The Lectures are The Border Zones of Exact Science November 1896 Some Thoughts on Psychology May 1897 An Inaugural Address on Becoming Chairman of the Zofingia Club Thoughts on the Nature and Value of Speculative Inquiry Summer 1898 and Thoughts on the Interpretation of Christianity with Reference to the Theory of Albrecht Ritschl January 1899 [The Zofingia Lectures](#) Carl Gustav Jung, 1983 **The Collected Works** C. Jung, 1983-11-21 The authoritative edition of the revealing lectures Jung delivered during medical school In 1895 after enrolling in the medical school of Basel University Jung became a member of the Zofingia Society a student fraternity to which he delivered five lectures over the next four years Anticipating and illuminating his mature interest in empirical psychology spiritualism the occult and the metaphysical these talks confirm that Freudian psychoanalysis was a diversion in Jung s intellectual development *Spiritualism and the Foundations of C. G. Jung's Psychology* F. X. Charet, 2015-04-17 Charet uncovers some of the reasons why Jung s psychology finds itself living between science and religion He demonstrates that Jung s early life was influenced by the experiences beliefs and ideas that characterized Spiritualism and that arose out of the entangled relationship that existed between science and religion in the late nineteenth century Spiritualism following its inception in 1848 became a movement that claimed to be a scientific religion and whose controlling belief was that the human personality survived death and could be reached through a medium in trance The author shows that Jung s early experiences and preoccupation with Spiritualism influenced his later ideas of the autonomy personification and quasi metaphysical nature of the archetype the central concept and one of the foundations upon which he built his psychology **Towards a Jungian Theory of the Ego** Karen Evers-Fahey, 2016-07-15 Despite their prevalence and weight in many of

his collected works and letters Jung did not articulate a general theory of the ego and consciousness Towards a Jungian Theory of the Ego examines the development of Jung's concept of the ego as he expanded and revised this concept from his earliest formulations about consciousness while a student to his mature thoughts at the end of his life Drawing on Ego Psychology as a theoretical framework Evers Fahey proposes that Jung uses the concept of ego in four distinct ways and that he developed and used his ego concept based on two discrete paradigms These distinctions explain the confusion and ambiguity found when examining the development of Jung's analytical psychology over his lifetime This book provides an examination of ego development and ego defenses based on a unique Jungian standpoint as well as discussion of the relationship between the ego and the Self and the ego and the individuum Furthermore the inclusion of a historical framework helps to place the development of these concepts in context This book proposes a theory of ego psychology based on Jungian theory rather than traditional psychoanalytic theory thereby filling a gap in the knowledge of Jungian theory The book will be essential reading for academics and postgraduate students engaged in the study of Jungian psychology and psychoanalytic theory and will also be valued by those interested in Jung and ego psychology more generally
