Inspired by leaders such as Andrew Tate and Jordan Peterson the online Manosphere has exploded in recent years Dedicated
to anti feminism these communities have orchestrated online campaigns of misogynistic harassment with some individuals
going as far as committing violent terrorist attacks Although the Manosphere has become a focus point of the media
researchers and governments alike discussions tend to either over sensationalize the community or offer simplistic
explanations for their existence This book uses a mixture of historical and economic analysis alongside actual Manosphere
content to delve deeper With *The Male Complaint* Simon James Copland explains how the Manosphere has developed and
why it appeals to so many men He argues that the Manosphere is not an aberration but is deeply embedded within
mainstream neoliberal social structures For a cohort of alienated men the promise of community provides a space of
understanding connection and purpose This insightful book dares to dig into the corners of incel communities and online
spaces where misogyny thrives It is essential reading for anyone who wants to understand and do something about this
