Knights of Spain, Warriors of the Sun Charles M. Hudson,2018-01-15 Between 1539 and 1542 Hernando de Soto led a small army on a desperate journey of exploration of almost four thousand miles across the Southeast Until now his path has been one of history s most intriguing mysteries With Knights of Spain Warriors of the Sun anthropologist Charles Hudson offers a solution to the question Where did de Soto go Using a new route reconstruction for the first time the story of the de Soto expedition can be laid on a map and in many instances it can be tied to specific archaeological sites Arguably the most important event in the history of the Southeast in the sixteenth century De Soto s journey cut a bloody and indelible swath across both the landscape and native cultures in a quest for gold and personal glory The desperate Spanish army followed the sunset from Florida to Texas before abandoning its mission De Soto s one triumph was that he was the first European to explore the vast region that would be the American South but he died on the banks of the Mississippi River a broken man in 1542 Abundantly illustrated Knights of Spain Warriors of the Sun is a clearly written narrative that unfolds against the exotic backdrop of a now extinct social and geographic landscape Hudson masterfully chronicles both De Soto s expedition and the native societies he visited A blending of archaeology history and historical geography this is a monumental study of the sixteenth century Southeast
