## **War In A Stringbag:**

War in a Stringbag Charles Lamb,2001 A classic autobiography by the best known Second World War Fleet Air Arm pilot A story of real life adventure action and heroism Commander Charles Lamb fought an exceptional war flying the slow and obsolete Fairey Swordfish for the Fleet Air Arm It was an antiquated machine but it could outmanoeuvre almost any other aircraft and in Charles Lamb s hands the Stringbag as the torpedo bomber was affectionately known was a deadly weapon Charles Lamb fought in the thick of the action This is his story from the first day of war as a Lieutenant on board Courageous to the accident aboard Implacable in action against the Japanese in June 1945 which ended his war A rare account of determination action and spirit by a man who was an inspiration to those around him **To War in a Stringbag** Charles Lamb,1980 To War in a Stringbag Outlet,Outlet Book Company Staff,Random House Value Publishing Staff,1988-01-01

The Man Who Built the Swordfish Adrian Smith,2018-04-30 Sir Richard Fairey was one of the great aviation innovators of the twentieth century His career as a plane maker stretched from the Edwardian period to the jet age he lived long enough to see one of his aircraft be the first to break the 1000mph barrier and at least one of his designs the Swordfish holds iconic status A qualified engineer party to the design development and construction of the Royal Navy s state of the art sea planes Sir Richard founded Fairey Aviation at the Admiralty s behest in 1915 His company survived post war retrenchment to become one of Britain s largest aircraft manufacturers The firm built a succession of front line aircraft for the RAF and the Fleet Air Arm including the iconic Swordfish In addition Fairey Aviation designed and built several cutting edge experimental aircraft including long distance record breakers between the wars and the stunningly beautiful Delta 2 which broke the world speed record on the eve of Sir Richard s death in 1956 Fairey also came to hold a privileged position in the British elite courting politicians and policymakers He became a figurehead of the British aviation industry and his successful running of the British Air Commission earned him a knighthood A key player at a pivotal moment Fairey s life tells us much about the exercise of power in early twentieth century Britain and provides an insight into the nature of the British aviation manufacturing industry at its wartime peak and on the cusp of its twilight years *Naval Aviation in the Second World War* Philip Kaplan,2013-10-30 The first aircraft carriers made their appearance in the early years of World War I These first flattops were improvised affairs built on hulls that had been laid down with other purposes in mind and it was not until the 1920s that the first purpose built carriers were launched but no one was as yet clear about the role of the carriers and they were largely unloved by the battleship admirals who still believed that their great dreadnoughts were the ultimate capital ships World War II changed all that At Taranto Pearl Harbour and in the North Atlantic the carrier the ugly duckling of the world s navies proved itself to be the dreadnought nemesis As the tide of war turned the fast attack carriers of the U S Navy spearheaded the counter attack in the Pacific while the makeshift escort carriers helped to seal the fate of the German U boats in the Atlantic The carrier and naval aviation thus emerged into the post war world as the primary symbol and

instrument of seapower it would play a crucial role in the strategic encirclement of the Soviet Union and enabled western airpower to be rapidly and effectively deployed in areas of conflict as remote as Korea Vietnam the Falklands and the Gulf Kaplan describes the adventure of the young American British and Japanese naval aviators in the Second World War It is an account of their experiences based on archives diaries published and unpublished memoirs and personal interviews with veteran naval airmen of WWII providing a vivid and often hair raising picture of the dangers they encountered in combat and of everyday life aboard an aircraft carrier It considers some of the key aspects of the WWII naval aviator s combat career such as why it was that only a tiny minority of these pilots those in whom the desire for aerial combat overrode everything accounted for such a large proportion of the victories In the major carrier actions of that conflict from the Royal Navy s attack on Taranto which crippled the Italian fleet in 1940 to the Japanese carrier launched surprise attack on U S Navy battleships and facilities at Pearl Harbour in 1941 to the carrier battle of Midway in 1942 and the Great Marianas Turkey Shoot of 1944 through the Japanese Kamikaze campaign against the U S Carriers in the final stages of the Pacific war this book takes the reader back to one of the most exciting and significant times in modern history

**Stringbag** David Wragg,2004-11-01 This is a narrative account of the operations of the Fairey Swordfish throughout World War Two The most famous of these was the attack on the Italian fleet at Taranto crippling three battleships and damaging several other ships as well as the seaplane base and an oil storage depot The Swordfish played a prominent part in the Battle of Matapan and in the sinking of the Bismarck Less happily Swordfish were used in the unsuccessful and ill prepared raid on the Germans at Petsamo and in the abortive attack on the battle cruisers Scharnhorst and Gneisenau during the Channel Dash in 1942

**A Life of Admiral of the Fleet Andrew Cunningham** Michael Simpson,2020-09-23 This book presents an account of the life of naval commander Andrew Cunningham the best known and most celebrated British admiral of the Second World War It supplements Cunningham s papers by Cabinet and Admiralty records papers of his service contemporaries and of Churchill

**The Escort Carrier of the Second World War** David Wragg,2005-09-19 To the US Navy they were CVEs To the Royal Navy auxiliary carriers To crews of endangered merchantmen in the Atlantic and Arctic oceans they were heaven sent protection To their crews they were Combustible Vulnerable Expendable The need for air cover against enemy aircraft and submarines brought unprecedented demand for carriers Over 100 vessels were converted or specially built for convoy duty This is their story warts and all

**The War Against Rommel's Supply Lines, 1942-1943** Alan Levine,1999-06-30 An exciting account of a little known yet vital part of World War II the Allied effort to blockade Axis forces in North Africa with a relatively small number of planes and submarines included some of the war s most spectacular air battles and opened the way to the attack on Fortress Europe from the south This is the first book length treatment of the crucial struggle to cut Axis supply lines in the Tunisian campaign of 1942 1943 a

battle often ignored or played down even by official historians The campaign marked the first big U S victory against the Axis powers and served as a proving ground for several top Allied commanders This study fills an important gap in the history of the war reevaluating the development of Allied airpower and the role of Italy in the campaign Allied success in interdiction was a critical factor in the greatest Allied victory in the Mediterranean campaign a victory which left the enemy so weakened that it could not stop the subsequent invasion of Europe from the south Despite initial disorganization and early disappointments the British waged one of only two successful submarine campaigns ever fought This study describes some of the war s most amazing air battles notably Operation Flax against the enemy s air transport fleet and attacks on convoys all interwoven with the events of the ground war in the desert and comparisons with the Pacific effort It details the struggle to reorganize and improve the Allied effort the belated success of sea sweeps against enemy ships and the final victory in the spring of 1943 in which an air blockade was clamped on the sea and sky approaches to Tunisia

*Combat Biplanes of World War II* Peter C. Smith, 2015-09-30 Aviation and maritime historian Peter C Smith reveals how both Allied and Axis powers used World War I era aircraft in *Combat Biplanes of World War II* The era of the combat biplane is usually thought to have been between 1914 and 1938 By the outbreak of World War II most of the advanced air forces of the world had moved on to monoplane aircraft for their front line battle forces both in bomber and fighter capacities Yet despite this many biplanes did still survive both in front line service and in numerous subsidiary roles and not just as training machines but as fully operational warplanes Thus in 1939 the majority of major European powers still retained some albeit few biplane aircraft Great Britain had the bulk of such obsolescent machines including the Gladiator Swordfish Walrus Vildebeeste and Audax while the inferior Albacore meant to replace the Swordfish had yet to enter service Germany still managed to conduct missions in which biplanes like the He 50 He 51 and Hs 120 excelled Both France and Italy had active biplanes Mussolini s Regia Aeronautica attaching great importance to the type as a fighter aircraft as late as 1941 while the Soviet Union also retained some machines like the Po 2 in front line service right through the war and beyond By the time Japan and the United States entered the war two years later they had mainly rid themselves of biplanes but even here a few specialized types lingered on *Combat Biplanes of World War II* describes many of these gallant old warriors representing the author s own personal selection from a surprisingly large range of aircraft that despite all predictions fought hard and well

Shores,Brian Cull,Nicola Malizia,1987 Italy s declaration of war began these battles during WWII including the exploits of the great RAF fighter pilot Pat Pattle The Royal Navy in World War Two Derek G. Law,1988 **The Fighting Ships of the Rising Sun** Stephen Howarth,1983 The Imperial Navy of Japan is the only world class navy in history which had a definite beginning and an equally definite end covering a span of nearly fifty one years Despite its brief life the Imperial Navy rapidly achieved the status of the world s third greatest navy and in its last years almost won an even higher position but instead in the final contest lost everything Pref **Morning Glory** Stephen Howarth,1983 **The War Has Ended But the Memory Lingers on** Christiaan Gutteling,Christiaan Gutteling with Helen Gutteling Atkinson,Helen Co Gutteling Atkinson,2012-02-01 This fascinating tale of living under German occupation during World War II is told from the unique perspective of a Dutch secret agent Highlighted by high drama it is an epic story of life and conflict in the presence of an oppressive enemy The anti German struggle in the Netherlands was centered on sabotage requiring stealth and cunning The reality of war forced many to choose between helping with the resistance going into hiding or leaving the country Those who stayed and served saved countless numbers of Jewish lives and aided the war effort by covertly gathering and disseminating valuable information The author narrowly escaped the Germans as the British Navy came to his rescue His story of unremitting toil to overtake an unrelenting enemy is stirring inspiring and unforgettable *War Blindness at St. Dunstan's* Sir Arnold Lawson,1922
