The good times have gone by and today's society's technology has left us in a single state that of being obese. Our way of life has shifted dramatically and our comfort level has improved tenfold as a result. Every rose has its thorn and for our society our desire to live comfortable lives while working less has begun to manifest itself in the form of a bulging waistline. Extra weight is a harbinger of illness whether it manifests itself as diabetes or a heart condition it will eventually manifest itself if you do nothing to address it. You must be proactive in gaining weight and you must struggle to lose it until you reach a position where you no longer have control.
