## **Framework Coworking Spaces:**

*Coworking Spaces* Janet Merkel, Dimitris Pettas, Vasilis Avdikos, 2023-11-07 This contributed volume considers the emergence of coworking as centered in labor issues. More specifically its chapters consider it as a coping mechanism in the worldwide rise of independent modes of work i.e. self employment that leaves more and more workers exposed to precarity as they must organize and manage their own labor. Grounded in this perspective this volume aims to understand the transformative social and political potentials emerging through coworking as a social and spatial practice. There is a distinct lack of discussion within coworking research on the emancipatory potentials of coworking and if it is discussed more cautionary views prevail highlighting the ambivalence of coworking spaces both as a space of alternative economic practices and as integrated into market economies. The aims of this collection are twofold. First it aims to make visible the plurality of existing practices around shared resources in coworking and the assemblages of human and non human actors as agents of change associated with coworking and the re organization of work and labor power. And second it aims to develop a more emancipatory narrative for coworking and the role of coworking spaces for workers but also the different spatial contexts in which these spaces are situated. A narrative that does not emphasize entrepreneurship or coworking as the epitome of the neoliberal entrepreneurial self as in the dominant interpretations in the current research but rather one that centers coworking in the creation of meaningful careful social relationships supporting empathy and an ethics that recognizes mutual interdependencies and builds a foundation for social change. So it is about alternative narratives emancipation politics and the wider social role that coworking spaces might play in neighborhoods cities or beyond because they are crucial contexts for the formation and maintenance of social relations. With this specific direction this collection aims to bring coworking research into a fruitful dialog with other research fields such as sociology of work feminist perspectives on care alternative and diverse economies post capitalist transformation critical geography positioning coworking within a range of progressive alternatives in the articulation of economic and social relationships.

*The Flexible Workplace* Marko Orel, Ondřej Dvoulitý, Vanessa Ratten, 2021-01-19 With current socio economic development trends and changing work landscapes modern workplaces are progressively becoming a subject of flexibilisation and hybridisation. Contemporary office environments are commonly adapting to the needs of the flexible labour markets by offering the non territorial and rotation based practice of allocating desks to workers on dynamic schedules. This book explores this growing trend by offering different perspectives on the benefits and challenges of the flexible workplace phenomena. Topics discussed range from defining and comparing flexible coworking and corpworking spaces policies made in local environments and the flexible working taxonomy.

**New Ways of Working** Nathalie Mitev, Jeremy Aroles, Kathleen A. Stephenson, Julien Malaurent, 2021-02-22 This volume focuses on new ways of working and explores implications of these new practices with a particular emphasis on the place occupied by technology materiality and bodies within contemporary working configurations.

It draws together an international range of scholars to examine diverse subjects such as the gig economy social media as a work space the role of materiality in living labs managerial techniques and organizational legitimacy Drawing on global perspectives from France to Nigeria this book presents a fascinating examination of the many new ways people are working and relating to their work Part of the esteemed Technology Work and Globalization series this book is valuable reading for scholars working on organizational studies ethnography technology management and management more generally
